

# Costpoint Manufacturing

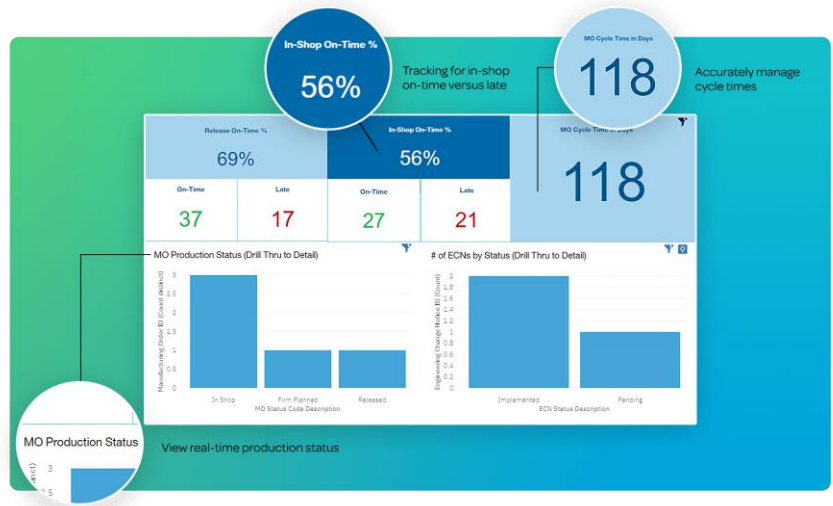

Increase profitability and improve project success for government contractors with Costpoint Manufacturing by bringing efficiency and digitalization to the operations process—from bid to shipment. Tie all data to financials in one secure system; paper processes are digitalized as data is captured, stored, and analyzed in real-time, down to the project level.

## Benefits Include:

**Digitalize Processes** – Withstand interruptions with modernized, flexible, and integrated automation for visibility into changes and process control.

**Speed Up Cycle Time** – Connect and automate processes between finance and production for improved accuracy, true costs, and audit readiness.

**Stricter Compliance Support** – Leverage contract flow downs and organizational, project and part security. And automate traceability on every transaction.

## Features include:

**Enhanced Manufacturing Business Intelligence**

**Compliance, Security and Traceability Support**

**All Data in One System**

**Be Proactive with Cost and Quality Control**

**Simplify Pay Rules with Shop Floor Time**
