Walmart Vendor Screening Background Check **\$42.50***plus court fees if applicable

US AliasVerify

With a US AliasVERIFY check, we will not only search more than 650 million criminal records from counties, departments of corrections (DOC), administrative Office of courts (AOC) and offender registries from all 50 states, plus Washington DC, Guam, and Puerto Rico for the provided and alias names found, but we will also verify criminal matches directly at the source before reporting them, updating the record to match currently available public records, completing incomplete records, and allowing reporting of records that become legally reportable based only on the updated and complete record.

County Criminal

Most felony and misdemeanor cases are filed in county courts, so county criminal record searches are one of the most powerful sources for uncovering criminal records. County criminal searches return information from the court records in which the conviction is recorded. We will develop and search every name and county where the applicant has lived in the past 7 years, searching 7 years of criminal history.

* court fees may apply.

Federal Criminal

Crimes reported in a federal criminal record include only those offenses that are federally prosecuted (violations of federal law as enforced by the FBI, DEA, ATF, and other government agencies) as opposed to local and state law. We will search all names developed as well as all US District Courts.

International Criminal

We perform international criminal records checks all over the world. We determine if a record exists associated with an applicant in local criminal court or police jurisdictions. Our searches are performed (when permissible) at the district or city court level based on a particular country and the permissibility/availability of the information. Content may vary from country to country.
