

## VendorSAFE

For Fairchild Semiconductor Corporation vendors

# Preferred Background Screening Program

## Required VendorSafe Screening Package

## Minimum Package Price

\$31.00

plus court fees

Our auto development process will instantly recommend the county and federal jurisdictions. The recommendations are derived from a social security number based name and address history we run and present in real-time at no cost to you while you are entering the subject's information on the order screen. The package cost will increase if your subject has lived in multiple jurisdictions for the past 7 years.

### **US AliasVerify**

This is a multi-faceted search that combines a search through the industry's #1 criminal conviction database\* with known aliases sourced from a name and address history based on the subject's social security number. The names searched for include the primary name and other names found in the name and address history for your subject, such as maiden names, previously married names, middle names used as first names, nicknames and other aliases. With a US AliasVERIFY check, we will not only search more than 500 million criminal records from counties, departments of corrections (DOC), administrative Office of courts (AOC) and offender registries from all 50 states, plus Washington DC, Guam, and Puerto Rico for the provided and alias names found, but we will also verify criminal matches directly at the source before reporting them, updating the record to match currently available public records, completing incomplete records, and allowing reporting of records that become legally reportable based only on the updated and complete record.

### **County Criminal Searches**

Most felony and misdemeanor cases are filed in county courts, so county criminal record searches are one of the most powerful sources for uncovering criminal records. County criminal searches return information from the court records in which the conviction is recorded. A report covering county criminal records may include information regarding the degree of the offense, offense dates, case numbers, filing dates, defendants, counts, trial dates, verdicts, disposition, disposition dates, and sentencing information. Our auto development process will instantly recommend the county jurisdictions. The recommendations are derived from a social security number based name and address history we run and present in real-time at no cost to you while you are entering the subject's information on the order screen.

#### **Federal Criminal Searches**

A federal criminal search is conducted by ordering individual US District Court indices in much the same way as a county criminal history. Our auto development process will instantly recommend the federal jurisdictions. The recommendations are derived from a social security number based name and address history we run and present in real-time at no cost to you while you are entering the subject's information on the order screen.

A one-time online set up fee of \$49.95 will be charged to your credit card.
