Preferred Background Screening Program

Package **\$11.00**

US AliasVerify Search

This is a multi-faceted search that combines a search through the industry's #1 criminal conviction database with known aliases sourced from a name and address history based on the subject's social security number. The names searched for include the primary name and other names found in the name and address history for your subject, such as maiden names, previously married names, middle names used as first names, nicknames and other aliases. We will not only search our database, but we will also verify criminal matches directly at the source before reporting them, updating the record to match currently available public records, completing incomplete records, and allowing reporting of records that become legally reportable based only on the updated and complete record.
