Enhanced Nationwide Criminal Search (US AliasVERIFY)

\$26.25*

The US AliasVerify is a multi-faceted search that combines National Criminal Database with the known aliases provided from a SSN trace. With a name and SSN, we report the state and the approximate date of issuance of the SSN. We then run the SSN through the Social Security Administration's Death Master Index. Next, we run a SSN trace to obtain a list of alias names, including maiden names. All information derived is then run through the national criminal database. Criminal matches are verified directly at the source before being reported, ensuring maximum risk protection and greater accuracy.
