Multi-Jurisdictional Criminal Convictions Database (US OneSEARCH®)

With one search, you can comb more than 550 million criminal records from counties, department of corrections (DOC), administrative office of courts (AOC), and offender registries from all 50 states, plus Washington DC, Guam, and Puerto Rico. Also included are national and international terrorism sources and more than 10 million photos.

Name and Address History Report (US OneTRACE)

backgroundchecks.com will run an individual's social security number (SSN) against a multi-jurisdictional database that includes information provided by hundreds of public and private sources. The result is our US OneTRACE search that details available names and addresses associated with the provided SSN.

Statewide Criminal*

A statewide search may yield information from multiple counties in a given state that report into the repository, useful for discovering crimes outside of the immediate area in which the subject lives or works. Not all counties in every state report to statewide repositories and some counties are inconsistent in their reporting. Please note that only the State of MD will be searched.

County Criminal*

Most felony and misdemeanor cases are filed in county courts, so county criminal record searches are one of the most powerful sources for uncovering criminal records. County criminal searches return information from the court records in which the conviction is recorded. Please note that we will only search and develop Counties where the applicant has lived outside the State of Maryland

Court and verification fees may apply.
