Drug Screening Program

IU School of Nursing Drug Screening Package

10 Panel Drug Test

\$45.00

10-panel including checks for Amphetamines, Cocaine, Marijuana, Opiate, Phencyclidine PCP, Barbiturates, Benzodiazepine, Methadone, Propoxyphene and Methaqualone.

Through our website you get access to our partner's Drugs of Abuse Screening Systems, installed in over 2,000 occupational health clinics nationwide. Their system creates a closed-loop process by performing an automated drug screen at the point-of-collection, which then incorporates an electronic Chain of Custody and web-based result reporting. This system speeds and streamlines drug testing collection procedures to ensure continuity, security and efficiency.

Important Scheduling Information

Once your order is placed, a scheduling representative will send you a clinic passport for your drug test via email within 2 business days. This email will be mailed from donotreply@eScreen.com. If you do not receive this email within this timeframe (please check junk folder), please call us at (866) 767-1678. You must comply with the test time frame listed on the clinic passport or you will be turned away at the clinic.
