When combined with a competitive data acquisition department, dedicated to providing the most current data possible, you get a best-in-class multi-jurisdictional criminal convictions database.

Package Name - UW-Stout School of Education $8.75 *court fees may apply.

Product Name - US OneVERIFY

Product Description- With a US OneVERIFY check, we will not only search more than 650 million criminal records from counties, departments of corrections (DOC), administrative Office of courts (AOC) and offender registries from all 50 states, plus Washington DC, Guam, and Puerto Rico, but we will also verify criminal matches directly at the source before reporting them, updating the record to match currently available public records, completing incomplete records, and allowing reporting of records that become legally reportable based only on the updated and complete record.

Product Name - Statewide Criminal

Product Description- A statewide search may yield information from multiple counties in a given state that report to a repository, useful for discovering crimes outside of the immediate area in which the subject lives or works. backgroundchecks.com can currently process record searches for 30 states in house through the state's electronic access systems, including states like Pennsylvania, Texas, Utah, Florida, and South Carolina. For another 14 states, we submit requests to the state for fulfillment. And another 6 states have restrictions that prevent us from completing searches: These are California, Louisiana, Nevada, Ohio, West Virginia, and Wyoming.

* Court fees may apply

Package Name - International Student Package $5.75

Product Name - US OneVERIFY

Product Description- With a US OneVERIFY check, we will not only search more than 650 million criminal records from counties, departments of corrections (DOC), administrative Office of courts (AOC) and offender registries from all 50 states, plus Washington DC, Guam, and Puerto Rico, but we will also verify criminal matches directly at the source before reporting them, updating the record to match currently available public records, completing incomplete records, and allowing reporting of records that become legally reportable based only on the updated and complete record.

better data, *better* checks
