Meet your cloud co-pilots

DoiT has made the most of the cloud from day one. And since becoming a Google Cloud Managed Service Partner in 2011, we've been committed to helping customers improve their public cloud use, spend and results.

Innovating in the cloud can be complex — even experts need a hand sometimes. Which is why our partnership provides zero cost, 24/7, engineer-to-engineer support for Google Cloud users.

Here you'll learn more about our expert consultation, five key ways to innovate in the cloud and the magic of Google Cloud.

The experts' expert

Tap into deep engineering expertise at no additional cost

Working with DoiT means you get unlimited cloud consulting and engineering support from dedicated Senior Cloud Architects who've seen everything under the ~~sun~~ cloud.

Whatever you need — technical support, architecture reviews, migration assistance, deployment planning, best practice sessions — consider DoiT your go-to Google Cloud experts.

DoiT
INTERNATIONAL

Google Cloud
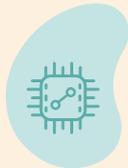

Unlock the full potential of your cloud

DoiT has done it all before, and as your cloud co-pilot we're here to help you innovate. Here are just some of the areas we can support:

Containers and Kuberenetes

App modernization and standardization

Machine learning

Big data, BigQuery and analytics

Cloud cost optimization

Capitalize on cost-saving tools

Beyond just a helping hand, we're also building and investing in both proprietary and open source technologies that help you optimize your cloud deployments.

Cloud Analytics Reports

Machine learning-assisted insights on your Google Cloud costs with our leading cost management and cloud optimization platform.

BigQuery Lens

Leverage the power of BigQuery at peak efficiency with the only query optimization engine built specifically for Google BigQuery.

We help you build, run and scale Kubernetes with confidence, freeing your engineers to focus on tasks that drive business growth.

If you're using Google Cloud, you'll see meaningful cost savings and cloud optimizations within 90 days of being onboarded.

Unlock your full potential with Google Cloud

We've helped thousands of organizations evaluate, test and migrate their programs to Google Cloud. While each migration is unique, our engineers have years of hands-on experience supporting a range of organizations across multiple cloud platforms — experience that minimizes your cloud migration risk.

DoiT customer environments on Google Cloud include over:

1,269,105	**721**	**656**
daily instances	petabyte data storage	petabyte monthly data transfer traffic

The magic of Google Cloud

Google Cloud is one of the most innovative and open cloud platforms available, providing robust and scalable solutions. Handle large data volumes, minimize infrastructure management with Kubernetes and run fast queries on up to petabytes of data with no operational overhead. If you're innovating in the cloud, Google Cloud is the place to move your applications.

Migrate in 4 simple steps

With our thorough consultation and expert solutions, you can be confident in the cloud in just four simple steps:

1. Assess
with DoiT Cloud Compare

2. Pilot
with DoiT Google Cloud Sandbox

3. Move
data and apps with DoiT open source tools

4. Optimize
with DoiT cloud management platform
