A durable solution Where design meets functionality

Create a space for well-being

Interior decor trends change and the same applies to bathroom interiors. Therefore, when the bathroom is updated or installed, it is a good idea to think thoroughly about the details. Details that help to give the room the look you want and are easy to change when trends change.

Details such as finding the perfect toilet seat help define the look of the room. A toilet seat is not just a functional item, it is one of the many elements that contribute to the overall appeal of the bathroom.

No matter whether the bathroom has to ooze romantic French undertones, Nordic minimalism or urbane colour combinations, you will find a Pressalit toilet seat to matches.

Award-winning Danish design over many years

If there is one thing that does not go out of fashion, it's Danish design. With a Pressalit toilet seat where function, design and quality go hand-in-hand, the award-winning and functional design will become an integral part of the bathroom. We have won several Red Dot Design Awards for our classic toilet seats. They complement all bathroom styles and bring together together world-class Danish design with innovative functions. So a toilet seat from Pressalit is the reliable and perfect solution - time and again.

CREATED**

Toilet seats for all types of projects

For larger projects, it is important to choose a toilet seat according to the specification requirements. The most important aspect for some projects is practicality while for others, the seat design and aesthetics are the highest priority.

Pressalit can provide toilet seats to suit any project, where design, functionality, hygiene and stability all come together. With a broad assortment of toilet seats in various sizes and shapes, we usually find the most suitable model whatever the project.

Pressalit at the top of Aarhus

ARoS Aarhus Art Museum with the iconic rainbow at the top of the building, has chosen to install Pressalit toilet seats on the museum's toilets. ARoS is known for its perfectionism, its quality awareness is clearly apparent throughout the museum: from when you look up at the rainbow right down to where you see the toilets.

Pressalit's design history, focus on hygiene, quality and durability make our toilet seats ideal for all the world's projects.

” We have toilet seats that fit all conventional toilets in the market and price levels that match every need. This includes our project seats which provide good value for money and have a 10-year guarantee.

Anders Jørgensen, Sales Director, Pressalit

The right functions

Create luxury in everyday life

Soft close: a quiet luxury

A toilet seat with the soft close function is a quiet luxury in everyday life. The toilet seat floats quietly down and lands softly on the toilet bowl without a bang.

The soft close function is a little luxury most people would not like to be without.

Lift-off and quick-release: for easy cleaning

Cleaning a toilet seat properly in and around all the nooks and crannies can be difficult. With the lift-off or quick-release function, the toilet seat can be easily and quickly taken off the toilet bowl and placed back again after cleaning. This makes cleaning much easier and more effective.

Colour changes

Colours can make a big difference to the look of a room. Colours can elevate the interior in any bathroom and sometimes also have a practical function. We have a broad selection of toilet seats in various colours and with different surfaces that suit any bathroom.

Guaranteed long-life durability

With hard wearing materials, fittings in stainless steel and intuitive functions, Pressalit toilet seats meet the most rigorous quality tests.

This is why we provide a 10-year guarantee on our toilet seats. The long-life durability makes a toilet seat from Pressalit ideal for the private bathroom as well as public.

Improve hygiene with Polygiene®

Damp and unventilated bathrooms can create ideal conditions for bacteria to grow in. A hygienic toilet is important in the fight against infection and bacteria control.

A toilet seat with the treatment Polygiene® effect inhibits the growth of bacteria and consequently helps prevent the spreading of bacteria. Pressalit toilet seats with Polygiene® should be used for public and high use facilities, but can also be used in private homes where greater focus on hygiene is desired.

Made in Denmark

Toilet seats from Pressalit are designed, developed and manufactured in Denmark. Through exciting design collaborations with, for example, Lars Herold and Knud Holscher, Pressalit has become part of Danish design history. So a toilet seat from Pressalit is a stamp of quality on the bathroom.

Toilet seats from Pressalit:

- Are a stamp of quality on the bathroom
- Are a durable solution
- Are developed with focus on hygiene and easy cleaning
- Fit the vast majority of toilets

PRESSALIT SUPPORTS UNITED NATIONS GLOBAL GOALS

PREMIUM BATHROOM SOLUTIONS SINCE 1954

Pressalit A/S is a Danish privately owned company with production facilities in Ry, Denmark. Since 1954, we have been designing and producing toilet seats of the highest quality. And since 1975, Pressalit has also been developing accessible bathrooms and height adjustable kitchen solutions for people with reduced mobility. This has made us one of the world's leading manufacturers of premium bathroom solutions. High quality, flawless design and reliable functionality are the core features of our wide range of products.
