## Remember the details in the bathroom **Create the central theme**

The bathroom is an important room in the home; a room where most people spend time every day for personal care and well-being. The bathroom should be a pleasant place to be and fulfill a functional purpose.

### **Variety is the spice of life**

Bathroom accessories help define the look of the room. They can be useful to help change the overall appearance of the bathroom as trends evolve. They can also change and freshen things up from time to time.

When styling an interior, the bathroom accessories are an easy and less costly solution, when

contrasted to replacing wall surfaces, flooring or furniture.

### **Danish design in a class of its own**

Trends within home decor change. However, Scandinavian design never seems to go out of fashion. Bathroom accessories from Pressalit are designed in Denmark and have a strong focus on quality, durability and hygiene. At the same time they exude a beautiful and timeless design aesthetic.

### **Bathroom accessories from Pressalit:**

- Are designed in Denmark
- Are hygienic and aesthetically appealing
- Are available in a range of colors and surfaces

**Wall-mounted waste baskets - the hygienic and aesthetic solution**

A wall-mounted waste basket is a good solution to having a hygienic bathroom without compromising its aesthetic look. The round shape and soft lines are beautiful and create an easy to clean, hygienic shape. It is also much easier to clean the floor with wall mounted waste baskets.

Wall-mounted waste baskets are the perfect accessory for both private and public bathrooms.

**Folding seats - for more comfort in everyday life**

Folding seats can function as an extra seat in the bathroom. The soft, round shape gives the folding seat an elegant look and provides a comfortable surface to sit on.

Folding seats provide support for bathroom visitors when required. Because they fold out of the way, they take up little space and are ideal for small bathrooms.

# The little things **Make a big difference**

The bathroom accessory should always harmonize with the rest of the decor and style in the bathroom. It should be part of the overall effect you want to create.

Whether you are looking for natural decadence, urbane color combinations or Nordic minimalism, Pressalit has the accessory that will match.
