# A durable solution Where design meets functionality

## **Create a space for well-being**

Interior decor trends change. So do bathroom interiors. Therefore, when the bathroom is updated or installed, it is a good idea to think about style details. Give the room the look you want with the adaptability to change when trends change.

Details such as finding the perfect toilet seat help define the look of the room. A toilet seat is more than just a functional item. It is one of the many elements that contribute to the overall appeal of the bathroom. No matter whether the bathroom has to ooze romantic French undertones, Nordic minimalism, or urbane color combinations, you will find a Pressalit toilet seat to match.

## **Award-winning Danish design year after year**

If there is one thing that does not go out of fashion, it is Danish design. With a Pressalit toilet seat, where function, design, and quality go hand-in-hand, the award-winning and functional design will become an integral part of the bathroom. We have won several Red Dot Design Awards for our classic toilet seats. They complement all bathroom styles and bring together world-class Danish design with innovative functions. A toilet seat from Pressalit is the reliable and perfect solution - time and again.

CREATED**

### Toilet seats for all types of projects

For larger projects, it is important to choose a toilet seat according to specification requirements. The most important aspect for some projects is practicality. For others, the seat design and aesthetics are of the highest priority.

Pressalit can provide toilet seats to suit any project, where design, functionality, hygiene, and stability all come together. With a broad assortment of toilet seats in various sizes and shapes, we find the most suitable model for any project.

### Pressalit at the top of Aarhus

ARoS Aarhus Art Museum with the iconic rainbow at the top of the building has chosen to install Pressalit toilet seats on the museum's toilets. ARoS is known for its perfectionism and its quality awareness is clearly apparent throughout the museum: from the very top with the rainbow to the lower floor with the toilets.

Pressalit's design history, and our focus on hygiene, quality and durability, make our toilet seats ideal for projects all over the world.

# The right functions

## Create luxury in everyday life

### **Soft close: a quiet luxury**

A toilet seat with the soft close function is a quiet luxury in everyday life. The toilet seat floats quietly down and lands softly on the toilet bowl.

The soft close function is a little luxury most people would not like to be without.

### **Lift-off and quick-release: for easy cleaning**

Cleaning a toilet seat properly in and around all the nooks and crannies can be difficult. With the lift-off or quick-release function the toilet seat can be easily and quickly taken off the toilet bowl and placed back again after cleaning. This makes cleaning much easier and more effective.

reddot design award

### **Find the right toilet seat - quickly and easily**

Pressalit has made it easy for you to find the best seat suited to your requirements, regardless of

toilet features. With our suitability list you are sure to get the best result.

### Color changes

Colors can make a big difference to the look of a room. Colors can elevate the interior in any bathroom and can have a practical function. We have a broad selection of toilet seats in various colors and with different surfaces that suit any bathroom.

### Guaranteed long-life durability

With hard-wearing materials, fittings in stainless steel, and intuitive functions, Pressalit toilet seats meet the most rigorous quality tests and standards.

This is why we provide a 10-year guarantee on our toilet seats. The long-life durability makes a toilet seat from Pressalit ideal for both private and public bathrooms.

### Improve hygiene with Polygiene®

Damp and unventilated bathrooms can create ideal conditions for bacteria to grow. A hygienic toilet is important in the fight against infection and bacteria.

A toilet seat with the Polygiene® treatment inhibits the growth of bacteria and consequently helps prevent the spreading of infection. Pressalit toilet seats with Polygiene® should be used for public and high use

facilities, but can also be used in private homes where a greater focus on hygiene is desired.

### Made in Denmark

Toilet seats from Pressalit are designed, developed, and manufactured in Denmark. Through an exciting design collaboration between Lars Herold, a talented Pressalit designer, and Knud Holscher, one of Denmark's most award winning architects and designers, Pressalit has become part of Danish design history. A toilet seat from Pressalit is a stamp of quality in any bathroom.

Toilet seats from Pressalit:

- Provide quality, Danish design, and an aesthetically pleasing appearance.
- Are durable and guaranteed to last.
- Are developed with focus on hygiene and easy cleaning
- Fit the vast majority of toilets

## PRESSALIT SUPPORTS UNITED NATIONS GLOBAL GOALS

## PREMIUM BATHROOM SOLUTIONS SINCE 1954

Pressalit A/S is a Danish privately owned company with production facilities in Ry, Denmark. Since 1954, we have been designing and producing toilet seats of the highest quality. And since 1975, Pressalit has also been developing accessible bathrooms and height adjustable kitchen solutions for people with reduced mobility. This has made us one of the world's leading manufacturers of premium bathroom solutions. High quality, flawless design and reliable functionality are the core features of our wide range of products.
