## CHANGING PLACES

Pressalit cares about the Changing Places movement. Read more on page 10-11

# Pressalit supports the United Nations Sustainable Development Goals

On September 25th, 2015, more than 150 countries came together and formulated the Sustainable Development Goals in order to end poverty, protect the planet, and ensure prosperity for all.

## Pressalit supports the Sustainable Development Goals,

because we believe that if we all do our part, we can achieve the Sustainable Development Goals and make the world a better place.

## Pressalit on social media

PRESSALIT®

Every year in November, we celebrate World Toilet Day. At Pressalit, we care about sanitation as a natural part of designing and producing toilet seats. World Toilet Day is about inspiring action to tackle the global sanitation crisis. #SDG

PRESSALIT®

Today, we celebrate World's Best Morning in collaboration with World's Best News. We do this by focusing on the progress and sustainable solutions to global challenges and by offering our employees extra special treats. #WorldsBestNews

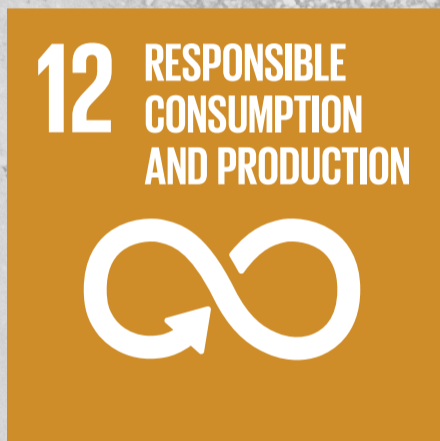

PRESSALIT®

Pressalit welcomes 100.000 bees to our premises! Together with BISTAD, we are raising awareness of the decline in bees, which poses a serious threat to global agriculture and our food chain. #PressalitLife

At Pressalit, we focus on three Sustainable Development Goals whilst working with all of the Sustainable Development Goals. Our three goals in focus concern areas close to our core business in which we believe our knowledge and experience can make a positive footprint on a sustainable development. Specifically,

**we have chosen Sustainable Development Goals 4, 6, and 12 as focus areas for new, progressive projects and initiatives.**

 PRESSALIT.

For thousands of people worldwide, using public bathrooms is simply not an option because there are not enough bathrooms, which are accessible for people with disabilities. Pressalit supports #ChangingPlaces

 PRESSALIT.

Meet Torben and Helen. They are part of a programme that combines education and integration to make them become plant operators. #QualityEducation

 PRESSALIT.

True to tradition, a group of volunteers from Pressalit visited a place for homeless people to serve traditional Danish Christmas food. As usual, it was a great experience for both parties. #ChristmasSpirit

---

Pressalit integrates Scandinavian design in your home.

Design is in our DNA, and for more than 60 years we have been an important part of Danish design history.

Such a legacy sets standards. It is a legacy that has been passed on from generation to generation in our privately owned company, and a design philosophy we take great pride in protecting.

Our design has given us great awards during the years. Some of them are shown here.

Branded goods  
made in \_\_\_\_\_

Denmark

**100% of our production  
takes place in Denmark,  
because we believe in  
Danish knowhow.**

At Pressalit, quality is about more than words. We put people and environment first and truly believe, that more than 60 years of using high quality materials to create high quality products do matter. Our methods of research and development are groundbreaking and we believe that every employee matters.

“  
Quality is  
when the  
customer  
returns  
- not the  
product.”

**SUPPORTS**  
UNICEF

## SANITATION FOCUS

---

The aim of our partnership with UNICEF is to create awareness about how sanitary conditions are linked to prospects for the future. Our objective is to raise awareness and help making the world a better place for children now and in the future.

## WASH-INITIATIVE

---

Currently, 2.3 billion people do not have access to proper sanitation. This results in death, diseases and environmental damage implicating numerous children on a global basis. As sanitation is one of Pressalit's main business areas, we have a natural urge to fight poor sanitation. Therefore, we have a particular focus on the WASH (Water, Sanitation And Hygiene) initiative.

Seats-project

# ARoS

**Pressalit  
products**  
on the top  
of Aarhus,  
Denmark

ARoS is one of the largest art museums in Northern Europe. Each year, AROS has over one million visitors, making it the most frequented art museum in Scandinavia. AROS art museum is known for its perfectionism and quality is felt throughout the museum. Therefore, AROS has chosen Pressalit products in the museum's restrooms.

Care-project

# Oskarslund

Oskarslund  
in Karlstad,  
Sweden, **is a  
modern facility  
for people with  
dementia**

Clever design, solution thinking, a sense of home and being able to live as independently as possible were paramount focal points when the residential care centre of Oskarslund was built and therefore, Pressalit products were naturally the first choice in individual bathroom solutions.

# Changing Places

The Changing Places Consortium was created in 2005 in collaboration with a number of British organisations. The mission of Changing Places is to create convenient bathroom facilities in public spaces for people with profound and multiple learning disabilities, as well as people with physical disabilities. The organisation advocates bathrooms with extra equipment and space, which allow users to use the facilities safely and comfortably.

Pressalit are proud to present our products in several Changing Places facilities all over the world. Our products are prevalent in the United Kingdom, United States of America, New Zealand and Australia and on the rise in Germany.

# Laura's bathroom

In Greve, Denmark, lives Laura, a 13-year-old girl, with her parents. Laura has muscular dystrophy and as Laura grows up, her need for independence grows.

Laura's desire for independence is particularly strong when it comes to managing by herself in the bathroom. No teenager wants to be dependent on his or her parent's help with toileting and bathing. The family realized that their existing bathrooms did not meet Laura's current or future needs, so they wanted a functional and future-proof bathroom. At the same time, it was essential that the solution should be modern and stylish as well as having room for Laura's dream of getting a make-up table. They decided on a Pressalit bathroom.

## ACCESSORIES

A single accessory can define the style of your home.

A home should be decorated the way you like. The components should be both practical and attractive to look at. With this in mind, we have designed gorgeous and practical bathroom accessories for your home.

---

## Pressalit supports the Danish para-athletes and their road to Tokyo 2020

Pressalit supports the Danish para-athletes and their quest for international medals through the Pressalit Sports Academy. In addition, every year, we hand out the Keep Living award to the best performing athlete.

---

## Premium bathroom solutions since 1954

Pressalit A/S is a Danish privately owned company with production facilities in Ry, Denmark. Since 1954, we have been designing and producing toilet seats of the highest quality. And since 1975, Pressalit has also been developing accessible bathrooms and height-adjustable kitchens for people with reduced mobility. This has made us one of the world's leading manufacturers of premium bathroom solutions. High quality, flawless design and reliable functionality are the core features of our wide range of products.
