

# Destiny One Proctoring and Exam Scheduling Module

— Flexibility, Efficiency, Control —

## *The Challenge: Meeting Demands for Growth while Maintaining High Academic Standards*

Academic integrity in student assessments is the foundation for all academic credibility and credentials today. However, new education delivery models stretch the administrator's ability to ensure assessment integrity. As online learning and competency-based education models gain in popularity and revenue pressures deepen, the administrator requires a means of efficiently scaling assessment and examination processes to meet demand. However, the administrator must also simultaneously provide the flexibility students need, while safeguarding academic integrity.

## Destiny One Proctoring and Exam Scheduling Module

Destiny Solutions provides the industry's first proctoring and exam scheduling solution for non-traditional education. Now, administrators can efficiently manage the exam center and proctor scheduling process. The Destiny One Proctoring and Exam Scheduling Module provides the administrator with the capability to flexibly manage exam scheduling in multiple ways including the traditional fixed exam time and place, or the flexible individualized approach or the combination that's just right for your school.

## Key Capabilities

### Notify

- Automatically notify students to select exam options
- Enable students to select from existing or recommend new proctors or exam centers

### Schedule

- Co-ordinate multiple exam center timetables
- Provide flexibility in exam and proctor scheduling for students and staff

### Add new

- Validate and approve new proctors or exam centers
- Establish multiple exam or assessment delivery options for each course section

### Facilitate

- Automated instruction delivery to the proctor or exam center and to the student prior to the exam
- Support online assessments delivered by your LMS or online proctoring partner

# Reimagine Your...

## Market Potential

**Attract and retain students by providing accessibility, flexibility and choice of exam centers, timetables and proctors**

- Enable learners to create a schedule that meets the needs of their busy life, making courses, exams and proctors more accessible
- Establish new exam centers or local proctors based on enrollment demographics for a course or section

**Extend geographic reach by supporting exam centers and individual proctoring anywhere in the world**

- Manage individual students in far away locales through an approval process for new student-suggested proctors
- Maintain multiple exam centers and pre-approved proctors in numerous locations to meet the needs of geographically dispersed

## Business Agility

**Expand your market by supporting new and innovative learning delivery models**

- Efficiently and flexibly manage numerous student assessment scenarios for each course
- Support new and diverse learning models including online, self-paced, competency-based or personal learning pathways

**Efficiently grow your business and scale your exam process**

- Smoothly schedule and deliver more exams, in more different ways with less staff effort using an automated process and system-generated notifications
- Manage student inquiries and reduce exam stress with a 24-7 student self-service exam information portal

## Operational Integrity

**Improve academic credibility with trusted, repeatable processes**

- Control and automate exam and proctoring management with a repeatable, trusted and auditable process
- Ensure student authentication, privacy and academic integrity are met with automatic delivery of exam rules to students and proctors

**Enhance Governance with fully transparent processes and reporting**

- Ensure proctors and exam centers are properly selected and follow all institutional validation processes before making them available to students
- Improve exam process oversight and transparency with detailed reporting through the entire academic assessment process

## Reimagine Your Non-Traditional Learning Program Today!

The Destiny One Proctoring and Exam Scheduling module is the industry's first software solution that enables efficient, flexible and controlled scheduling of proctors and examinations. Now you can support non-traditional educational models, including online, distance and competency-based approaches to learning, from an integrated, easy to use interface.

The Destiny One Proctoring and Exam Scheduling Module is sold as a separately licensable module that is available to current Destiny One users. It is fully integrated with the Destiny One enterprise solution, and is available either as a cloud deployed SaaS model or as a premise-based installation.

Reimagine your program's increased market potential, business agility and operational integrity with Destiny One Proctoring and Exam Scheduling Module.
