

# Leave the Core Lab

Image Post-Processing Analysis  
to us!

## Benefits

- Reliable Service
- Reproducible Results
- Improved Turnaround Time
- Standardization

LVEDV	119.6 ml
LVESV	54.7 ml
LVSV	65.0 ml
LVEF	54.3%
LV Mass	60.4 g
RVEDV	110.4 ml
RVESV	55.0 ml
RVSV	55.3 ml
RVEF	50.1 %

## Core Lab Services

- Design & optimize protocols
- Dedicated project team
- Inter- & intra-observer analysis
- Data management statistical analysis
- Flexible scheduling
- Customized reporting
- Clinical Trial Management System
- Real-time reporting
- Remote access to review/edit/finalize
- Track & organize progress, case by case
- One-on-one analyst interaction
- Image Management Infrastructure
- Secure image & scan collection
- Anonymization
- Multi-modality & custom analyses
  - Unique expertise in cardiac imaging

## Precision Image Analysis At-a-Glance

- Accurate & consistent image analysis
- 24/7 supported & automated IT process
- Rapid turnaround time
- Highly trained Clinical Analysts
- ISO-9001:2008 certified
- HIPAA compliant cloud based IT
- Title 21 CFR Part 11 compliant
- Medical Director, previous President of the Society of Cardiac MR
