Discover it – a world of solutions for any IT environment.

The digital transformation in business, trade and industry offers a whole host of opportunities, but also throws up new challenges for IT infrastructures. Dealing with complex tasks and huge volumes of data calls for increasingly fast, flexible and efficient IT solutions.

Our response to this is a comprehensive product portfolio for all challenging IT scenarios. This provides a wide range of efficient and reliable options that can be purchased both quickly and cost-effectively.

CLIMATE CONTROL

Digitization is leading to ever more profound changes in virtually all areas of life. Industry 4.0, the Internet of Things, big data, analytics and edge computing are the driving forces behind this process. The business world as you know it is also affected. It must use innovative IT infrastructures to meet the associated requirements – and this will apply even more in the future. To meet these challenges, you need an efficient, solution-oriented IT partner such as Rittal.

Maximum modularity and efficiency

You can totally rely on our portfolio of solutions for meeting these complex, holistic requirements – from individual IT racks to a complete data center solution that offers maximum modularity and efficiency. Combined with all our expertise, this creates the right solution for each and every requirement.

Three dimensions – one perfect solution

All solutions are integrated into a cyclical process that offers you the full support of our experience and consulting expertise. The IT solutions can be scaled flexibly to suit your precise needs. The range of services offered by Rittal and its partners also includes comprehensive application solutions that are perfectly tailored to your specific requirements.

The end result is a wide range of data center modules that can be up and running in no time at all. They are cost-efficient, reliable and of the quality you have come to expect from Rittal.

IT INFRASTRUCTURE

SOFTWARE & SERVICES

Xpress enclosure

Ships complete with perforated single front door and split rear doors keyed alike, leveling feet, casters, roof with brush baffle cable access channels, cable management wall, and dual PDU vertical mounting wall.

Material:

- Carbon steel
- Aluminum

Surface finish:

- Enclosure frame: Dipcoat-primed
- Interior installation: Dipcoat-primed
- Doors and roof: Dipcoat-primed, powder-coated

Color:

Enclosure frame and panels:
Black RAL 9005,
Interior installation: Black RAL 9005

Protection rating:

UL/cUL

Supply includes:

- Enclosure frame TS8 with door and roof plate
- M6 cage nuts (Package of 100)
- M6 mounting screws (Package of 100)

Load capacity of 19" levels:

- 3372 lbs (15000 N)

Distance between rails as delivered:

- 29" (745 mm)

■ Included ¹⁾ Vented surface area approx. 85% perforated ²⁾ Packaged as top/bottom set for one side only; order two sets to cover both sides of cabinet

Colocation enclosure

Intensive physical security requirements are met with durable construction, doors with 2-point latching, internal hinges, locking handles and secure cable management.

Doors:

- Vented surface area approximately 64% perforated
- Two point latch on each compartment for optimum security

- Can convert a multi-door cabinet into a single door version when requirements change
- TS 8 comfort handle with lock insert
- Optional individually keyed compartments available

- Can be either right hand or left hand hinged
- Internal hinges for optimum security

Color:

Black RAL 9005

NEMA 12/UL Type 12 network enclosure

Our NEMA/UL Type 12 enclosures provide a high degree of protection from dirt, dust, dripping water and external condensation of non-corrosive liquids.

Doors and walls:

- Secure to external surfaces of frame
- Doors can be easily removed or reversed
- Internal door hinge and lock points for maximum security

Vertical mounting rails:

- Fully depth adjustable, maintain load capacity regardless of where the rails are positioned
- Floating installation system, vertical rails are not secured to frame members or lateral support channels; can be adjusted independently
- “Z” shaped, multi-fold profile, high load bearing capacity and multiple mounting surfaces

- U markings on front and rear surfaces of each rail
- Unique rail design allows for up to 32 U in the zero “U” space
- Each cabinet includes M6 Cage Nuts with insertion tool (bag of 50) and M6 Mounting screws with plastic washers (bag of 100)

Note:

23" mounting capability on 32" (800 mm) wide cabinets

Supply includes:

- One set of 19" (482.6 mm) EIA rails, front & rear
- Leveling feet

For flexible use as a wall-mounted or floor-standing enclosure.

Advantages:

- Tool-free quick mounting
- System configuration on an open 19" frame

Material:

- Carbon steel
- Viewing window: Single-pane safety glass, 3 mm

Surface finish:

- Powder-coated Color:
- Light Gray RAL 7035

Supply includes:

- Flat-packed enclosure
- 1 wall section
- 2 basic supports
- 2 roof/base plates, with cut-outs for cable entry via brush strips
- 2 sidewalls, lockable

- 1 glazed door, lockable, security lock 3524 E, door catch freely selectable
 - Connection components for tool-free, fast assembly
 - Grounding kit for system -compatible grounding of all enclosure parts
- Please note the product-specific scope of supply.

Note:

- Max. installation depth: 112 mm
- Max. distance between two 19" levels: Depth -126 mm

Technical details:

LCP–Liquid Cooling Package Rack CW

Benefits:

- Maximum energy efficiency due to EC fan technology and IT-based control
- Minimal pressure loss at the air end, which in turn minimizes the power consumption of the fans
- Control of the server intake air temperature
- Redundant temperature sensor integrated at the air end
- Optimum adaptability due to dynamic, continuous control of the cold water volume flow
- By using high water inlet temperatures the proportion of indirect free cooling is increased, which in turn reduces operating costs

- Targeted cooling output due to modular fan units
- Fan modules configurable as n+1 redundancy
- The separation of cooling and enclosure prevents water from entering the server enclosure
- Up to 60 kW cooling output on a footprint of just 3.87 ft²
- Minimal area load thanks to low weight

Approvals:

- UL
- cUL

Functions:

The LCP draws in the air at the sides at the rear of the server enclosures, cools it using a

high performance multi-row heat exchanger, and blows the cooled air back into the front part of the server enclosure at the sides.

Monitoring:

- Monitoring of all system-relevant parameters such as server air intake temperature, server waste air temperature, water inlet/return temperature, water flow, cooling output, fan speed, and leakage
- Direct connection of the unit via SNMP over Ethernet

Temperature control:

- Infinitely variable fan control
- 2-way control valve

Color:

- Black RAL 9005

Protection category IP to IEC 60 529:

- IP 20

Cooling medium:

- Water

Optional:

- Automatic server enclosure door opening
- Various sensors
- Racks 2200 mm high

Technical details:

Available on the Internet. Photo shows a configuration example with equipment not included in the scope of supply.

LCP—Liquid Cooling Package Inline CW

Benefits:

- Maximum energy efficiency due to EC fan technology and IT-based control
- Minimal pressure loss at the air end, which in turn minimizes the power consumption of the fans
- Optimum adaptability due to dynamic, continuous control of the cold water volume flow
- By using high water inlet temperatures the proportion of indirect free cooling is increased, which in turn reduces operating costs
- Targeted cooling output due to modular fan units
- Fan modules configurable as n+1 redundancy
- Redundant temperature sensor integrated at air end

- The separation of cooling and enclosure prevents water from entering the server enclosure
- Water supply can be set to either top or bottom
- Up to 60 kW cooling output on a footprint of just 3.87 ft²
- Minimal area load thanks to low weight

Functions:

The hot air is drawn in from the room or hot aisle at the rear of the device and passing through a high efficiency multi-row heat exchanger expelled at the front into the cold aisle after cooling. The LCP achieves maximum performance and efficiency

in conjunction with cold aisle containment. With this product, a raised floor is not necessary.

Approvals:

- UL
- cUL

Monitoring:

- Monitoring of all system-relevant parameters such as a server air intake temperature, server waste air temperature, water inlet/return temperature, water flow, cooling output, fan speed, and leakage
- Direct connection of the unit via SNMP over Ethernet
- Integration into RiZone

Temperature control:

- Infinitely variable fan control
- 2-way control valve

Color:

- Black RAL 9005

Protection category IP to IEC 60 529:

- IP 20

Cooling medium:

- Water
- Water/Glycol

Optional:

- Various sensors
- Racks 2200 mm high

LCP—Liquid Cooling Package DX

Benefits:

- Cooling output up to 20kW
- Standard and high ambient condensers for all North American locations
- Small footprint due to innovative large surface area cooling design
- Easy maintenance with tool less EC fan replacement and easy access electrical connections
- High partial load efficiencies from the inverter controlled compressor which maintains set point temperature as heat loads vary
- Electronic expansion valve to quickly react to changing thermal loads and optimize system operation

- Redundancy achieved by inter-connecting up to 8 units
- Low environmental impact with R410a refrigerant
- Protects sensitive equipment by rapidly responding to changing heat loads

Functions:

Introducing the NEW LCP DX

20kW: The NEW LCP DX provides 20 kW of cooling capacity and is available in closed loop Rack and open loop Inline. The LCP Rack DX is coupled with one or two enclosed racks allowing placement in non-controlled environments. The LCP Inline DX is the optimal choice for maintaining

temperatures in re-purposed data rooms and server closets.

LCP Rack and Inline DX 12kW:

The LCP DX 12 kW is also available in Rack and Inline versions and provide flexible and scalable cooling for small data centers. The Rack version is paired with NEMA 12 rated server racks for a completely stand-alone system in uncontrolled environments. The Inline version provides whole room cooling of racks and other equipment while maintaining optimal inlet temperatures. Redundancy is achieved through N+1 EC fans and a designated primary and backup LCP DX control scheme.

Temperature control:

- Infinitely variable fan control
- Inverter-controlled compressor

Color:

- Black RAL 9005

Protection category IP to IEC 60 529:

- IP 20

Cooling medium:

- R410a

9977.379	Hose Connection Kit	1
9971.173	10' Hose	1
9971.174	15' Hose	1
9971.175	25' Hose	1

For use with LCP CW 3311.148, 3311.238, 3311.268, 3311.538, 3311.548, 3311.568

Accessories

Fan Module for LCP CW

To increase the cooling output, individual fan modules can be retro-fitted into the LCPs. This helps to generate redundancy or reduce the electrical power consumption of the LCP.

For LCP	Color	Packs of	Model No.
3311.148, 3311.238, 3311.268, 3311.538, 3311.548, 3311.568	Black RAL 9005	1 pc(s).	3311.016

The LCP 3311.238/538 (max. 30 kW) is supplied with one fan module as standard

To achieve the max. cooling output of 30kW, the customer/service should install two additional fan modules.

The LCP 3311.268/568 (max. 60 kW) is supplied with four fan modules as standard

To achieve the max. cooling output of 60 kW, the customer/service should install two additional fan modules

Rittal edge solutions

Edge computing is speeding up IT by bringing the network closer to the data to reduce latency and increase real-time analysis. From the plant floor to the subway tunnel and remote desert solar installations, the Internet of Things (IoT) is integrating sensors, data and systems to help decentralize and localize control over the systems that run the world today.

The lifecycle IT

Scalable solutions and flexible services for your data center at clearly calculable costs

Optimization

Optimization: The efficiency, cost, sustainability and scalability is carefully analyzed to so that we can identify ways to optimize your IT infrastructure.

Operation

Your data center operations need to be protected to ensure 24x7 uptime. Our individualized service agreements with guaranteed response times can provide the peace of mind and keep your data center solution running.

Design

We will design the data center infrastructure to give you the optimal balance of CAPEX and OPEX. Our solutions are developed based on pre-engineered platform designs that can be customized to your needs and can be deployed globally.

Implementation

Our installation team will build and install the supporting infrastructure (power, cooling, fire suppression, monitoring & security data) needed to operate your critical IT. Once built, it will be tested, commissioned and handed over to you.

Maximum efficiency in a minimal space

Edge data centers with innovative cooling technology

Edge Data centers are often located in unconditioned environments and exposed to harsh conditions, making protection of the IT equipment from such contaminants crucial. Rittal offers a full spectrum of cooling solutions designed to operate in these harsh environments maintaining the proper conditioned space for your IT equipment.

Application example:

Single enclosure solution designed to install in space constrained locations. The stand-alone roof top air conditioner and solid front and rear enclosure doors ensures operation in the harshest of environments.

Your benefits at a glance:

- Pre-engineered solutions - unpack, install, and deploy
- Industrial strength - protect the mission critical IT deployment
- Safety, security, stability - designed to maximize uptime
- IP 54 with pleated filter rating keeps equipment safe from dust and water droplets
- Remote monitoring and control – sustain locations with limited IT support infrastructure

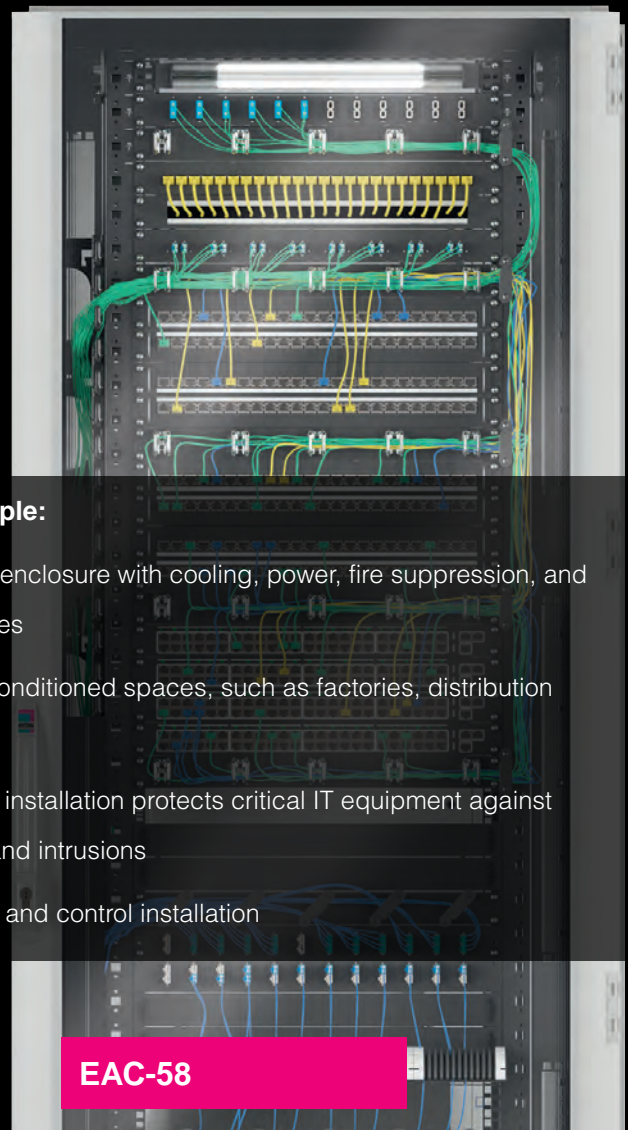

EAC – 13

IT infrastructure	Product description
IT rack	(1) TS IT Network/server enclosure, with solid roof
IT cooling	Roof mounted cooling unit, Blue e+, up to 1.3kW, with IoT Interface
IT power	PDU, Metered, 120V, 1PH, 60Hz
IT power	UPS, 3000VA/2700W, 120V
IT monitoring	Additional temperature, humidity and vandalism sensors
IT security	Electronic locking with keypad and network access
IT fire suppression	In-rack Novec 1230 fire suppression system
IT accessories	IT LED system light. Raised platform base.

All the variants shown are sample configurations. Individually adaptable.

EAC-26

EAC-58

Application example:

- Integrated single enclosure with cooling, power, fire suppression, and related accessories
- Designed for unconditioned spaces, such as factories, distribution centers, closets
- Physically secure installation protects critical IT equipment against dust, water, fire, and intrusions
- Remotely monitor and control installation

Reliable, redundant and fail-safe

Edge data centers in the small output category

Edge data centers can handle a wide variety of tasks, not just data capture and condition monitoring. With critical processes, such as controlling traffic flows or monitoring production processes, it is particularly vital for an edge data center to reflect the availability of the application. Scalable redundancy is the key here.

Application example:

IT infrastructures comprising just one or two IT racks must still offer the same features as a large data center. This begins with a reliable power supply and cooling, and extends through to monitoring.

Smaller edge data centers are ideally suited for distributed installation across various locations for processing data in real time (for example, traffic monitoring and control).

EDX-XCL or EDX-XOP

IT infrastructure	Product description
IT rack	(1) or (2) TS IT Network/server enclosure, viewing and solid doors (closed loop) or perforated doors (open loop)
IT cooling	Close-coupled LCP DX unit, up to 20kW, closed or open loop
IT power	PDU, Metered, 208V, 1PH, 60Hz
IT power	UPS, 8000VA/6900W, 208V

IT accessories	IT LED system light. Raised platform base.

All the variants shown are sample configurations. Individually adaptable.

Scalable in multiple dimensions

Edge data centers in the medium output range

Edge data centers are always defined by the application. CPU-intensive applications may require multiple enclosures with a higher cooling output. The modular system from Rittal safeguards your growth plan, as it is scalable in terms of size, redundancy and maximum load.

Pre-Engineered, Ready to Deploy

Edge data centers available for rapid installation

The continued increase of edge data center to support an unparalleled demand for data presents new challenges. When it comes to installation, having the capacity for rapid deployment allows businesses to get their IT equipment operational quicker.

RDX-55 or RCW-55

All the variants shown are sample configurations. Individually adaptable.

Application example:

Your business may involve running numerous critical IT applications simultaneously and the data center needed to support may necessitate multiple IT cabinets. These data centers even though not as large as the hyperscale ones, need to be designed and built to the same standards and quality as the hyperscale ones. Rittal's pre-engineered platform designs allows you to have a superior, code compliant data center customized to your needs at a tier level you want.

RDX-90 or RCW-90

IT infrastructure	Product description
IT rack	(9) TS IT Network/server enclosures, perforated doors
IT cooling	Close-coupled LCP DX or CW units, open loop
IT containment	Aisle containment
IT power	PDU, Switched, 208V, 3PH
IT power	UPS, 100+20kW, 208V, 3PH
IT monitoring	Additional temperature, humidity and vandalism sensors
IT security	Electronic locking with keypad and network access
IT fire suppression	Room Novec 1230 fire suppression system. early smoke detection system
IT accessories	IT LED system light. Raised platform base.
All the variants shown are sample configurations. Individually adaptable.	

Benefits of Rittal pre-engineered platform designs:

- Pre-engineered designs complete with electrical, mechanical, fire suppression, etc. for various IT loads
- Easy customization of design to suit your individual requirement on redundancy, power, rack density, etc
- Project planning and management
- Complete turnkey delivery with commissioning of installed data center

RCW-180

IT infrastructure	Product description
IT rack	(18) TS IT Network/server enclosures, perforated doors
IT cooling	Close-coupled LCP CW units, open loop
IT containment	Aisle containment
IT power	PDU, Switched, 208V, 3PH
IT power	UPS, 200kW, 480V, 3PH / 208V, 3PH
IT monitoring	Additional temperature, humidity and vandalism sensors
IT security	Electronic locking with keypad and network access
IT fire suppression	Room Novec 1230 fire suppression system. early smoke detection system
IT accessories	IT LED system light. Raised platform base.
All the variants shown are sample configurations. Individually adaptable.	

High availability to suit every application

Edge data center in a security room*

Application example:

Innovative services provided by regional and local government demand the highest standards of security for storing sensitive citizen data and protecting it from manipulation, as well as real-time and long-term data processing. Additionally, data centers must often adapt flexibly to local situations and offer the option of dismantling and reassembly at another location.

The modular, scalable edge data centers in the Rittal security room meet all these requirements – the optimum solution for efficient e-government applications.

TIER IV High-Availability room

TIER III Basic Protection Plus room

TIER II Basic Protection room

**To be available soon*

The flexible modules concept

Edge data center in a container*

The IT infrastructure is significantly impacted by ever-growing data volumes. Demand for CPU and storage capacity is growing at a similar pace, leading to a need for more server and storage systems, yet space to increase the footprint of the IT infrastructure is limited. Rittal's data centers in containers offer the perfect solution, because the standardized systems are installed in a short time and the concept is individually tailored to your requirements.

Application examples for Rittal container solutions:

- Lack of space, because more IT hardware is needed as data volumes grow
- Influence of IoT and Industry 4.0: Data exchange between the machines and data center must be guaranteed
- With edge data centers, the computing performance is provided locally, data volumes are reduced, and pressure on the main company data center is relieved

Benefits of Rittal container solutions:

- Customized container solutions on a platform basis
- Predefined modules are individually compiled to create a container data center
- Pre-configured container solutions can be up and running in next to no time
- Project planning by Rittal
- Turnkey delivery of a field-tested solution complete with comprehensive documentation

**To be available soon*

A smarter world with edge

The future is digital – for life and work

The extent to which the IoT transforms our future will depend on faster, scalable and more secure networks: Consumers and companies alike need reliable connections to large numbers of systems that coordinate our lives and work. Edge computing plays a pivotal role in this new, smarter world.

Edge computing quite literally moves computer applications, data and services away from centralized nodes to the very edge of the Internet, facilitating rapid on-site analyses and data processing in real time. This doesn't just benefit sectors such as healthcare and transport, but any area of life which interacts with IoT devices.

Smart Healthcare

- Maximum data security
- Compliance with data protection
- Implementation of private clouds

Smart Telco

- 5G networks
- Mobile streaming
- Urban security
- Real-time risk detection

Smart Industry

- Smart factories
- Digital twin
- Anticipatory maintenance

Smart Finance

- Blockchain technologies
- Real-time transactions
- Smart contracts

Data Center Implementation and Operation

Turnkey Installation and After Sales Services

Mechanical and Electrical Design

- Calculation of cooling requirements for data center
- Designing piping layouts
- Selecting type and number of cooling units needed – Rittal and/ or third party
- Calculation electrical load for IT and cooling
- Gaseous Fire Suppression System Design – if room fire protection is required

Installation Services

- Install condensers and associated piping
- Install electrical power to racks, cooling units and UPS systems
- Install lighting and convenient outlets as required
- Install Hot/Cold aisle containment solutions
- Buildout room to install solution
- Install room security access solution

Commissioning

- Review startup reports
- Develop tests scripts
- Perform testing of the solution as a total system
- Develop final report and review with client

Project Management

- Single point of contact for customer
- Manage the day to day activity
- Coordinate with sub-contractors
- Provide Schedule, Status Reports and Closeout Documentation
- Coordinate customer training

After Sales Services

- Maintenance contracts
- Extended warranties
- Defined onsite response time
- 24x7x365 Customer support

Fire alarm and extinguisher system DET-AC/EFD Plus

Advantages:

- Early fire detectionn
- Automatic extinguishing
 - Innovative extinguisher gas NOVEC™ 1230
 - Eco-friendly
 - Uncritical for IT compo-nents, non-conductive
- 19" slide-in equipment with just 1 U
- Testing by VdS (VdS Schadenverhütung GmbH tests and certifies accident prevention equipment components or entire systems in its own laboratories)
- CAN bus interface for direct connection with the CMC III monitoring system

Material:

- Housing: Carbon Steel

Protection category IP 20

IEC 60 529:

- IP 30

Color:

- Housing: Light Gray RAL 7035
- Front trim panel: Black RAL 9005

Note:

- All three systems are designed exclusively for use in closed non-accessible enclosure systems
- Product based on European standards

DET-AC III Master

The active extinguisher system for use in sealed 19" server enclosures includes the smoke extraction system and the extinguisher unit in a 19" subrack, built into just 1 height unit. The smoke extraction system is identical to that used in the EFD III. When a main alarm is triggered, the extinguishing process starts automatically. The extinguisher medium used, NOVEC™ 1230, is stored in liquid form in the extinguisher tank. For the extinguishing process, pressure is applied to the tank and the extinguisher medium vaporizes at the extinguisher nozzle and is distributed within the server enclosure. Alarms and malfunctions can be forwarded to the CMC III monitoring system directly via the CAN bus interface. Floating contacts make it possible for the alarms (pre-alarm and main alarm) and the collective fault signal from the device to be forwarded to a superordinate location (monitoring or control system).

EFD III

The EFD III early fire detection system includes the smoke extraction system in a 19" subrack built into just 1 height unit. An integrated fan continuously extracts air from the area to be protected, via a pipeline system. The extracted air is passed over two fire detectors. If smoke aerosols are detected, the highly-sensitive detector emits a pre-alarm, with the second fire detector emitting the main alarm. The correct functioning of the fire detectors is monitored at all times by the evaluation and control electronics on the control board. Alarms and malfunctions can be forwarded to a superordinate location (monitoring or control system) via floating contacts. The integrated CAN bus interface enables direct connection to the CMC III.

DET-AC III Slave

The add-on unit for the DET-AC III Master contains another extinguisher unit. Up to five bayed enclosures may be extinguished in combination. In addition to the DET-AC III Master unit, a DET-AC III Slave unit is used for each additional bayed enclosure and contains the extinguisher gas for the enclosure in question. Detection takes place via the DET-AC III Master unit, even if there are multiple bayed enclosures. When a main alarm goes off, the DET-AC III Master triggers extinguishing at all units simultaneously. The DET-AC III Slave unit can also be used in conjunction with the EFD III unit.

 Leakage sensor, 15m – For monitoring a larger area on the floor for liquids, using the 15 meter detection cable. The sensor also reports the section of the cable in which leakage has been detected.	■	–	7030.440	4	32

Interface for CMC-TC Sensors

With the CMC III CAN bus sensor, it is possible to connect certain CMC-TC system sensors to the new CMC III. Old applications can be upgraded in this way with the CMC III Processing Unit/Compact. The unit not only has two CAN bus connections, but also one extra connection for one of the CMC-TC Sensors. The unit therefore acts as the interface between the CMC-TC sensor and the new processing unit, and adapts the sensor data to the CAN bus protocol.

Dimensions:

- H x W x D:
30 x 110 x 40mm

Material:

- Plastic

Surface finish:

- Front: Smooth
- Housing Textured

Color:

- Front: Black RAL 90005
- Housing: Light Gray RAL 7035

Protection category IP to IEC 60 529:

- IP 30

Supply includes:

- Sensor
- Assembly parts
- Assembly component
- Instructions booklet

The following CMC-TC sensors can be connected to the CMC III CAN bus sensor:

- 1 x temperature sensor
- 1 x analog input 4 – 20 mA
- 5 x access sensors in series
- 1 x airflow sensor
- 1 x smoke detector
- 1 x motion detector
- 1 x digital input
- 1 x digital relay output
- 1 x voltage monitoring system
- 1 x 48 V voltage sensor
- 1 x leakage sensor
- 1 x leakage sensor, 15 m sensor length
- 1 x door control unit (two connections)
- 1 x DET-AC extinguisher system (three connections)
- 1 x DET-AC early fire detection system (three connections)

Also required:

- CAN bus connection cable 7030.090/.095

Access system

CMC III unit for controlling and monitoring access to the enclosures. One handle and one reader unit can be connected to each CMC III CAN bus access. The handles can be linked with different number codes or RFID card numbers via the CMC III Processing Unit/Compact website, so that all the handles connected to a CMC III Processing Unit/Compact can be controlled with just one reading system. Thanks to the integrated infrared sensor, the status of the controlled door (open/closed) is still monitored

¹⁾ Max. 5 pc(s) for power supply with PoE

Power Pack Power Supply

for PU, PU Compact, CAN bus unit, CAN bus DRC, door control system.

The power pack is specifically adapted to the CMC III design and can be placed in a CMC III mounting unit. As well as a special connector for the CMC III Processing Unit/Compact, there are also two terminals available as 24 V outputs.

Technical specifications:

- Input voltage: 100 – 240 V / 50/60 Hz
- Output voltage: 24 V (DC)/2.5 A
- Length of 24 V DC connection cable: 0.6 m

Dimensions:

- H x W x D:
40 x 138 x 120 + 12 mm front frame

Material:

- Plastic

Surface finish:

- Front: Smooth
- Housing: Textured

Pack of	Part No.
1 pc(s).	7030.060

Color:

- Front: Black RAL 9005
- Housing: Light Gray RAL 7035

Supply includes:

- Assembly components
- Instructions booklet

Also required:

- Connection cable (see page 34)

Accessories:

- Mounting unit (see page 34)

Interference Suppressor for Fans

for CMC III

For connection of fans via the CMC III Power Unit 7030.050. Prevents malfunctions when switching off the fan motor. One interference suppressor is required per fan.

Material:

- Plastic

Packs of	Part No.
1 pc(s).	7030.051

Color:

- Black RAL 9005

Supply includes:

Assembly components

Programming Cable

For initial commissioning of the Processing Unit (PU) or PU Compact. The CMC III Processing Unit/ Compact is connected to a PC USB port via the programming cable to do this. A driver for Windows systems is also supplied, which must be installed on the PC.

Supply includes:

- CD with driver and system description

Packs of	Part No.
1 pc(s).	7030.080

CAN Bus Connection Cable

With this cable, the PU can be hard-wired with the CAN bus III sensors, III units and III control units as a bus. Also for cabling with one another. The different lengths allow the CMC III system to be adapted to different applications and specifically configured.

CMC III CAN bus connection cable	length inch (mm)	Packs of	Model No.
RJ 45	20 (0.5)	1 pc(s).	7030.090
RJ 45	39 (1)	1 pc(s).	7030.091

RJ 45	197 (5)	1 pc(s).	7030.094
RJ 45	304 (10)	1 pc(s).	7030.095

Connection Cable/Extension

For connecting to:

- CMC III Power Pack C13
- CMC III Power Unit C 13.

Technical specifications:

- PVC cable, 3-pole, with IEC connector (non-heating appliances) with CEE22 contact protection
- Length: Min. 1.8 m

Country version	Voltage Volt	Packs of	Model No.
Non-heating appliance extension C13/C14	230/115	1 pc(s).	7200.215

RJ 12 Extension Cable with RJ 12 connector/jack

To extend the cable connections to the CMC-TC sensors.

Length inches (m)	Packs of	Model No.
30 (1)	2 pc(s).	7320.814

Mounting Unit, 1 U

To make it easier to install the CMC III units in network and server enclosures. Mounting in the 19" (482.6 mm) profile (for three CMC III units).

To hold

- PU
- PU Compact
- Control units
- CMC III CAN bus DRC
- CMC III power pack
- CMC III GSM unit
- CMC III door control module

Can hold up to 3 CMC III housings and is mounted in the 19" frame.

Packs of	Part No.
1	7030.088

Material:

- Carbon steel

Surface finish:

- Zinc plated

Supply includes:

- 2 blanking covers

Accessories:

- Cable clamp bracket 7030.087 (see page 34)

Cable Clamp Bracket for CMC III

For attachment to the rear of the CMC III 19" mounting unit 7030.070. Enables neat cable routing at the rear of the installed CMC III devices, as well as fix-ing of the cables for strain relief. The cables can easily be laid as a loop, so that the installed CMC III devices can be removed from the mounting unit without the need for any tools.

Supply includes:

- Assembly components

Packs of	Part No.
1 pc(s).	7030.087

Mounting Unit

For mounting on the enclosure section (for a CMC III unit).

To hold

- PU
- PU Compact
- Control units
- CMC III CAN bus DRC
- CMC III power pack
- CMC III GSM unit
- CMC III door control module

Can hold one CMC III housing and is mounted on the enclosure frame

Packs of	Part No.
1 pc(s).	7030.071

Material:

– Carbon steel

Surface finish:

– Zinc plated

CMC III GSM Unit

For establishing a redundant transmission path or, if no network infrastructure is available, for alarm forwarding. The alarm message is sent as an SMS. To cover 4 GSM frequencies (quad band): 850 MHz, 900 MHz, 1800 MHz and 1900 MHz. A standard, commercially available SIM card must be provided by the customer.

Packs of	Part No.
1	7030.570

Material:

– Plastic

Color:

- Front: Light Gray RAL 7035
- Housing: Light Gray RAL 7035

Supply includes:

- RJ 12 cable
- GSM aerial
- Assembly components
- Instructions booklet

Door Control System DCS

Comprising:

- Door Control Module
- Door Control Kit

For automatic opening of TS IT rack doors

Application examples:

- Overtemperature in the sealed TS IT rack
- Extinguisher gas should get from the room to the rack

Control takes place through the Door Control Module DCM control unit. One DCM must control one rack with 2 doors (front/rear door). The use of CMC III and access sensors is recommended.

Note:

The following door kits can be connected:

- Two door kits (magnet systems with damper) 7030.240/.241/.250 (Required for all applications, Model No. depends on the door version)
- Two door kits (spindle motor) 7030.261 (For applications with negative pressure in the rack, e.g. LCP, powerful server fan motors, etc.)
- All the power packs used must be connected to the same power supply as the server, e.g. extinguisher systems

Activation in event of alarm:

- CMC III Task
- DCM, integrated temperature sensor
- DCM digital input

Activation for user access:

- One door switch/comfort handle 7320.793/.794 per door, see page
- Coded lock/transponder reader 7030.220/.230, see page

Also required:

- Door Control Module DCM (see page 37)
- Door kits (see page 37)
- Power packs (see page 33)
- Connection cable (see page 34)
- Mounting unit 1 U (see page 34)

Accessories:

- CMC III Processing Unit/Compact with connection, supply and mounting accessories (see page 28)
- Door switch/comfort handle (see page 38)
- Coded lock/transponder reader (see page 32)
- Access sensor (see from page 32)

System Diagram Door Control System:

- Max. 16 Door Control Modules can be connected per Processing Unit
- Max. 4 Door Control Modules can be connected per Processing Unit Compact

Door Control Module

Control unit for automatic opening of TS IT rack doors. Designed for a rack with a front and rear door. Suitable for the CMC III system with CAN bus.

Material:

- Plastic

Color:

- Front: Black RAL 9005
- Housing: Light Gray RAL 7035

Supply includes:

- Basic system
- 4 mounting feet
- Quick reference guide

Also required:

- Door kits (see page 37)
- Power packs (see page 33)
- Connection cable (see page 33)
- Mounting unit 1 U (see page 34)

Accessories:

- CMC bus connection cable (see page 33)
- Door switch/comfort handle (see page 38)
- Coded lock/transponder reader (see page 32)

Model No.	7030.500
Packs of	1 pc(s).
1st rated voltage	24 V (DC) Door Control Module via CMC III CAN bus, redundant at 2nd rated voltage
2nd rated voltage	24 V (DC) 7030.060 for Door Control Module and magnet systems
3rd rated voltage	24 V (DC) 7030.060 for spindle motors only (protect via UPS)
1 x temperature sensor input	NTC sensor (included with the supply)
3 x digital inputs	Alarm/front door/rear door
1 x input for readers	Coded lock/transponder reader
2 x outputs for door kits	Magnet system with damper
2 x outputs for door kits extension	Spindle motors
2 x CAN bus CMC III	RJ 45 for CAN bus cables

Door Kit

for TS IT (magnet system with damper)

To open the door in emergency situations. Connection and activation via the Door Control Module, for standard TS IT doors. The doors are kept closed by a magnet system. If the voltage of the magnets is interrupted, the gas pressure damper system opens the door

Technical specifications:

- Rated voltage: 24 V DC
- Rated current 7030.240/241: 390 mA
- Rated current 7030.250: 520 mA

Material:

- Carbon Steel

Surface finish:

- Zinc-plated

TS IT version	Packs of	Model No.
1-piece glazed aluminum door	1 pc(s).	7030.240
1-piece carbon steel door	1 pc(s).	7030.241
2-piece door	1 pc(s).	7030.250

Supply includes:

- Gas pressure damper
- Cable harness
- Magnet system with damper
- Instruction booklet
- Assembly components

Also required:

- Door Control Module DCM (see page 37)
- For 7030.250: Tubular door frame (see page 37)

Door Kit Extension

for TS IT, LCP (spindle motor)

To open the door in emergency situations. For applications with negative pressure in the rack, e.g. LCP, powerful server fan motors, etc., this kit is required in addition to the magnetic lock. The motor pushes the door open until the negative pressure is resolved. Mounting takes place on the roof.

Technical specifications:

- Rated current: 900 mA
- Compressive force: 1000 N
- Length of travel: Max. 200 mm

Material:

- Carbon Steel
- Aluminum
- Plastic

Packs of	Model No.
2 pc(s).	7030.261

Supply includes:

- 2 spindle motors
- 2 push frames
- Instruction booklest
- Assembly components

Also required:

- Door Control Module DCM (see page 37)
- Door kits (see page 37)
- Power pack (with UPS protection) (see page 33)

Door Comfort Handle with door opener function

When the lock mechanism is actuated, the door is released by the automatic door opening system. Designed for the installation of commercially available 40 mm semi-cylinders and SZ lock and push-button inserts.
Length: 302 mm.

Technical specifications:

- Rated voltage: 24 V (DC)
- Rated current: Max. 3 A
- Connection cable: Length 3 m
- Temperature application range: +41°F...+104°F

Color:

- Light Gray RAL 7035

Packs of	Model No.
1 pc(s).	7320.794

Also required:

- Handle adapter for mounting on glazed door 8611.080

Accessories:

- Lock and push-button inserts, see page 56

Door Switch

Switch with normally closed contact for Door Control Module 7320.790 for manual door opening. Mounting takes place in the 25 mm hole pattern of the TS IT frame profile.

Technical specifications:

- Installation: Ø 16.2 mm
- 250 V/2 A

Supply includes:

- 3 m connection cable
- Mounting bracket
- Assembly components

Packs of	Part No.
1 pc(s).	7320.793

Base/plinth

Base/plinth system for TS IT

Modular base/plinth diversity

The new, innovative base/plinth system VX offers an unprecedented diversity of functions and applications. It combines all existing base/plinth functions in a single solution, as well as opening up many new applications. As if that weren't enough, it is also backward-compatible with existing enclosure solutions TS, TS IT, SE, CM, TP, PC, IW and TE. In short, it is a base/plinth system.

The base/plinth system VX comprises the following components:

- Base/plinth corner pieces with base/plinth trim panels, front and rear
- Base/plinth trim panels, sides

Due to fully symmetrical corner pieces, and by using the same base/plinth trim panels in the width and depth, the system opens up many new applications. For example, the vented trim panels and trim panels with brush strips available as accessories may now optionally be attached at the sides, or exchanged for the front/rear trim panels.

All trim panels may optionally be clipped into the corner piece, or screw-fastened. Depending on the application, for example, users can dispense with the trim panels between bayed enclosure suites, or a 100 mm high trim panel may be used to stabilize the base/plinth corner pieces. In combination with its extensive range of accessories, and due to its compatibility with enclosure accessories, the base/plinth system VX offers almost infinite possibilities in terms of siting, transportation, cable routing, cable attachment and base/plinth configuration.

One Model No. for the **base/plinth corner pieces with base/plinth trim panels, front and rear**

One Model No. for the **base/plinth trim panels, sides**

One complete **base/plinth VX**

Base/plinth	Basic form	Cable entry options				Stabilization of bayed base/plinths
100 mm (4 in.)						
200 mm (8 in.)						

Configuration examples

Order includes	Functional benefits
3 packs Base/plinth corner pieces with base/plinth trim panels 1 pack Base/plinth trim panels, sides 200mm (8") high	Continuous cable chamber
3 packs Base/plinth corner pieces with base/plinth trim panels 1 pack Base/plinth trim panels, sides, 200 mm (8") high 1 pack Base/plinth trim panels, sides, 100 mm (4") high 1 pack Baying brackets, internal (8617.500, packs of 6) 4 pc(s). are required for this solution	Additional stability during transportation with base/plinth trim panels rotated through 90°
3 packs Base/plinth corner pieces with base/plinth trim panels 2 packs Base/plinth trim panels, sides, 200 mm (8") high	Shielding of the base/plinths from one another
Other option; ■ Cable entry at the side by fitting a 100 mm (4") base/plinth trim panel with brush strip ■ Cable entry from the rear by dismantling one or more trim panels from the base/plinth corner pieces and replacing them with trim panels with brush strips ■ Cable routing in the base/plinth by using punched sections with mounting flanges on the base/plinth trim panels	

Base/plinth

Base/plinth system for TS IT

Base/plinth corner pieces with base/plinth trim panels, front and rear

Carbon steel for TS IT

High-load capacity base/plinth corner pieces with molded self-positioning to the baying enclosure system VX25, may be used with or without base/plinth trim panels depending on the application. Large openings in the corner piece for optimum access to the screw-fastening point, may be concealed with a plastic corner and baying cover.

Material:

- Base/plinth corner piece: Carbon steel
- Base/plinth trim panel front/rear: Carbon steel
- Corner and baying cover: Plastic

Color:

- Black RAL 9005

100 mm (4 in.) high supply includes:

- 4 base/plinth corner pieces, 100 mm (4 in.) high
- 4 corner covers
- 1 baying cover
- 2 base/plinth trim panels, front/rear, 100 mm (4 in.) high
- Assembly parts

200 mm (8 in.) high supply includes:

- 4 base/plinth corner pieces, 200 mm (8 in.) high
- 4 corner covers
- 1 baying cover
- 1 base/plinth trim panel, front/rear, 200 mm (8 in.) high
- 2 base/plinth trim panels, front/rear, 100 mm (4 in.) high
- Assembly parts

100 mm (4 in.) high

For enclosure width mm (in.)	Model No.

1000 (40)	8640.024
1200 (48)	8640.025

Also required:

- Base/plinth trim panels, sides, to finish off a unit, for additional stabilization between base/plinths, or for interior configuration, see page 41

Accessories:

- Base/plinth trim panels with brush strip, see page 43
- Base/plinth installation bracket, see page 44
- Leveling component for base/plinth, see page 45
- Base mounting plate, see page 44
- Base plinth adapter for twin casters and leveling feet, see page 45
- Baying bracket, internal, see page 44
- Transport casters for base/plinth VX, see page 44

Base/plinth trim panels, sides

Carbon steel

To finish off a base/plinth unit at the sides and for additional stabilization or for the interior configuration of bayed base/plinths. One 200 mm (8 in.) or two 100 mm (4 in.) high trim panels may optionally be fitted on 200 mm (8 in.) high base/plinths.

Material:

- Carbon steel

Color:

- Black RAL 9005

Supply includes:

- 2 base/plinth trim panels
- Assembly parts

- Base/plinth installation bracket, see page 44

Possible alternative:

- Base/plinth trim panels with brush strip, see page 43
- Base/plinth trim panels, vented, see page

Base/plinth trim panels with brush strip

Carbon steel

For cable entry in the base/plinth. With a base/plinth height of 200 mm (8 in.), one or two trim panels with brush strips may optionally be used. Due to the complete symmetry of the base/plinth system VX, the trim panels with brush strip may either be fitted at the front, rear or side on the base/plinth corner piece.

Material:

- Base/plinth trims: Carbon steel
- Brush strip: Plastic, self-extinguishing

Color:

- Black RAL 9005

Supply includes:

- 2 base/plinth trim panels with brush strip
- Assembly parts

For enclosure width/depth mm (in.)	Model No.
600 (24)	8620.092

1200 (48)	8620.095

Base

Base/plinth for TS IT

Baying bracket, internal

- Fast, secure installation either from the front or from the side
- For all-round installation on the baying joint
- May be flexibly positioned to avoid collisions with installed equipment
- Also suitable for baying the VX base/plinth system

Material:

- Carbon steel

Surface finish:

- Zinc-plated

Supply includes:

- Baying bracket, internal
- Baying seal
- Assembly parts

P. of	Model No.
6 pc(s).	8617.500

Base mounting plate

For attaching the base/plinth to the floor.
For assembly screws up to 12 mm (.5 in.) Ø

Material:

- Carbon steel

Surface finish:

- Zinc-plated

P. of	Model No.
10 pc(s).	2817.000

Base/plinth for TS IT

Leveling component

For retrospective leveling on uneven floors at the installation site up to maximum of 15 mm (.6 in.) Installed through the base/plinth corner piece. Adjusted using a hex spanner, width across flats 19 mm (.8 in.)

Benefits:

- A door offset caused by uneven flooring can be corrected
- Installed on the assembled enclosure, i.e. no need to plan leveling in advance

Load capacity:

- Max. admissible load: 2500 N per leveling component (check the load capacity of the floor).

Supply includes:

- Assembly parts

For base/plinth height mm (in.)	P. of	Model No.
100 (4)	4 pc(s).	8100.710
200 (8)	4 pc(s).	8100.711

Base/plinth adaptor

For twin casters and leveling feet

For mounting twin casters and leveling feet to the VX base/plinth system.

Material	P. of	Model No.
Carbon steel	4 pc(s).	8100.770
Stainless steel	4 pc(s).	8100.771

Note:

- When fitting twin casters, side trim panels, see page 43, are required.

Leveling feet

18 – 43 mm (1 – 2 in.) high

To compensate for height differences with floor irregularities. Mounting thread M12.

Load capacity:

- Max. admissible load: approx. 3000 N per leveling foot

Description	Capacity	P. of	Model No.
For TS IT	675 lb (306 kg) per leveling foot	4 pc(s).	4612.000
For Plinth Installation	675 lb (306 kg) per leveling foot	4 pc(s).	8100.780
High Load	800 lb (363 kg) per leveling foot	4 pc(s).	9961.504

! Also required:

– Base mount, see page 51

Base plate accessories

Clips**for base plates**

As replacement and for additional gland plate attachments in TS.

Material:

Carbon steel

Surface finish:

Zinc-plated

Packs of	Model No.
50 pc(s).	8800.075

**Base mount
for TS IT**

To accommodate base plate modules.

- Tool-free mounting or screw-fastening
- Easily retrofitted and can be combined with the stabilizer

Material:

– Carbon steel

Surface finish:

– Spray-finished

Color:

– Light Gray RAL 7035

Supply includes:

– 2 mounting rails including assembly parts.

For enclosure depth inches (mm)	Packs of	Model No.
32 (800)	2 pc(s).	5501.310
39 (1000)	2 pc(s).	5501.320
47 (1200)	2 pc(s).	5501.350

**Bolt down anchoring kit**

For anchoring the enclosure even if it is on casters at any position of the base frame. Has a vertical slot to account for different vertical positions. Additional holes in the base are required for mounting.

Material:

Carbon steel

Surface finish:

Primed

Packs of	Model No.
4 pc(s).	9970.989

Base

Casters

Complete caster

Complete casters have 2 casters per piece. Cable entry holes included.

Configuration:

1 set = 2 caster plates with 2 casters per plate
1 caster plate with swivel casters

Load Capacity:

Supports dynamic load rating of 2250 lb
(1020 kg) per cabinet

Width inches (mm)	Color	Part No.
24 (600)	Black RAL 9005	9967.480

32 (800)	Light Gray RAL 7035	9967.485

Corner Caster Kit

Only for enclosures without base plates and base tray/base mount.

Configuration:

4 castors (2 steerable) including assembly components

Load Capacity:

Supports dynamic load rating of 551.2 lb
(250 kg) per cabinet

Packs of	Model No.
4 pc(s).	7825.900

Sidewall, divided

for TS IT

- Easy handling and tool-free assembly
- Quick-release fastener including security lock 3524 E
- Internal latch included (cannot be opened with a key)
- Lock with chassis, cable clamp rail may be top-mounted on the outer mounting rail
- Suitable for IT climate control and rack extinguishing

Material:

Carbon steel

Color:

Light Gray RAL 7035, Black RAL 9005

Supply includes:

- 1 console
- 1 pedestal
- Ground conductor
- Assembly parts

Walls

Partition wall

Cable pass through partition wall

For side partitioning of bayed TS server enclosures. Installs without the need for additional hardware or tools. Has four 4.41" (112 mm) cable pass through holes, grommet covers included.

Color:

Black RAL 9005

Note:

Use baying connector 8800.490 (see page 54).
Not for use in conjunction with a baying seal.
Can be installed and removed without moving the cabinet. Left side mounting for cable pass through in the rear of the rack.

Push-button inserts	2468.000
Push-button and lock inserts, lock no. 2123 E; no other lock is possible	2469.000

¹⁾ 2 keys included

Interior installation

Rail systems

TS System chassis 17 x 73 mm

For designing a flexible interior installation, or for accommodating additional components. The system chassis with mounting flanges may be attached directly onto a 19" (482.6 mm) mounting frame horizontally at the rear or in the enclosure depth between two mounting frames. An additional screw fastening secures the unit. Variable, with 5 rows of holes for universal skeleton structure or partial assembly.

Material:

– Carbon steel

Surface finish:

– Zinc-plated

Supply includes:

Assembly screws

Also required:

- For installation in CM, TP:
Rail for interior fitting, see page 56

Accessories:

- Screws, see page
- Cable ties for quick mounting 2597.000, see page 69

Note:

Requires mounting bracket 4182.000, see below

Mounting bracket

For TS

For variable attachment of system bar 23 x 23 mm.

Installation options:

- Optionally flush with:
 - Outer enclosure edge or
 - Enclosure clearance width
- On the horizontal TS enclosure section
- On enclosures and rails with rectangular system hole patterns 12.5 x 10.5 mm

Packs of	Part No.
24	4182.000

Material:

Die-cast zinc

Supply includes:

1 set = 1 mounting bracket, 1 screw M6 x 12 mm, 1 cage nut M6

Also required:

- U nuts for system bars (recommended: M6, 4179.000), see page 58
- Multi-tooth screws M6 x 12 mm (2504.500), see page 60

Support bracket

For TS

For the attachment of system chassis without mounting flange, 23 x 73 mm or system bars, 23 x 23 mm.

Installation options:

- On the horizontal TS enclosure section
- On enclosures and rails with rectangular hole patterns, 12.5 x 10.5 mm.

Material:

Die-cast zinc

Packs of	Part No.
24 set	4183.000

Supply includes:

1 set =
1 support bracket,
2 countersunk screws,
2 serrated lock washers.

Also required:

- U nuts for system bars (recommended: M6, 4179.000), see page 58
- Multi-tooth screws M6 x 12 mm (2504.500), see page 60

Interior installation

Assembly components

U nuts

For

- System bars 23 x 23 mm
- System chassis without mounting flange, 23 x 73 mm
- System chassis without mounting flange, 45 x 88 mm
- System chassis with mounting flange, 23 x 73 mm

For mounting system bars and system chassis without mounting flanges on angle brackets, mounting brackets and support brackets, we recommend U nuts with M6 thread (4179.000).

Interior installation

Slide rails

Telescopic support rail, heavy duty

These telescopic support rails are designed to support components from underneath, and can support up to 200 lbs (91 kg). Rails extend from 22" (560.5 mm), totally retracted, to 30" (762 mm), totally extended.

Supply includes:

2 support rails

Packs of	Part No.
2	9963.499

Slide rails, static installation

For mounting between a front and a rear pair of mounting rails.

- To support heavy installed equipment
- Side system hole pattern for mounting accessories and cooling components that expel to the side
- Fit into the system hole pattern of the TS IT

Technical specifications:

Load capacity: 176 lbs (80 kg), static

Material:

Carbon steel

U	19" (482.6 mm) distance between rails inches (mm)	Packs of	Part No.
1	14 (345)	2	5501.410

Surface finish:

Zinc-plated

Supply includes:

Assembly parts

Slide rails, depth-variable

For mounting between a front and a rear pair of mounting rails.

- To support heavy installed equipment
- To adapt to individual distances between rails
- Tool-free, time-saving one-man assembly from the enclosure front
- All three mounting holes are available for screw-fastening the equipment

Material:

Carbon steel

Surface finish:

Zinc-plated

Supply includes:

Assembly parts

Supply includes:

Assembly parts

Mounting kit

for 19" (482.6 mm) equipment

Facilitates fast, simple integration of additional mounting space within an enclosure by attaching to the enclosure frame or to the existing mounting rails at the sides. The flexible slot fastening of the brackets means that the distance between the two installation brackets may be freely selected, so that other 19" (482.6 mm) attachment dimensions may be implemented. The second row of holes is used for the optional configuration of additional mounting surfaces.

U	Color	Packs	Part No.

Interior installation

Grounding

Central grounding point

For connecting
– Ground straps
– Grounding braids
to the vertical and horizontal enclosure profile.
The connection bracket is connected to the enclosure frame with 2 screws and is securely contacted. Ground connection is carried out via the threaded bolt M8 x 0.8" (20 mm).

Material:

Carbon steel, zinc-plated

Packs of	Part No.
10	7829.200

Supply includes:

- 1 connection bracket
- 2 screws 5.5 x 0.5" (13 mm)
- 2 serrated washers
- 1 nut M8
- 1 contact washer M8
- 1 washer

Complete grounding kit

To DIN EN 60 950/VDE 0805, Ø 4 mm², I_{max}. 40 A
For system-compatible grounding of all enclosure parts on the enclosure frame according to VDE.
The ground conductors are preassembled ready for connection with connectors and cut to the correct length.

Supply includes:

- 8 grounding straps
- Central grounding point and assembly parts

Packs of	Part No.
1 set	7829.150

ESD connection point

Dangerously high potential differences can occur during maintenance or conversion work on the enclosure. To protect sensitive electronic components, this standardized connection point (push button) provides potential equalization. The connection point is directly conductivity connected to the enclosure frame via two screws.

Material:

Carbon steel, zinc-plated

Supply includes:

Assembly parts

Packs of	Part No.
1	7752.950

Ground rail, horizontal

Potential equalization rail, Current carrying capacity approx. 200 A.

Supply includes:

- Rail made from E-Cu 57 to DIN 12 163, DIN EN 13 601, 15 x 5 mm
- 20 connection points with M5 screws
- 2 ground connections, 25 mm²
- 2 isolators, including assembly parts

Length inches (mm)	Packs of	Part No.
18 (450)	1	7113.000

Grounding kit, preassembled

For star grounding. With the preassembled ground conductors on a potential equalization rail, star potential equalization is easily integrated into network enclosures.

Supply includes:

- Ground rail made from E-Cu 57 to DIN EN 12 163, DIN EN 13 601
- 16 grounding leads, 6 mm²
- 2 insulators
- Assembly parts

For TS enclosures up to H x W x D inches (mm)	Packs of	Part No.
79 x 32 x 32 (2000 x 800 x 800)	1 set	7829.100
87 x 32 x 39 (2200 x 800 x 1000)	1 set	7829.110

Ground rail, vertical

Easily fitted to the 25 mm DIN pitch pattern of distributors or to the 19" (482.6 mm) mounting rails. The supplied ground conductors facilitate star grounding of the cable clamp straps in the patch panels. The ground terminals are fully adjustable. Current carrying capacity of rail approx. 200 A.

Supply includes:

- Ground rail made from E-Cu 57 to DIN 12 163, DIN EN 13 601, 15 x 5 mm
- 16 conductor connection clamps, (2.5 – 16 mm²)
- 15 grounding leads, 6 mm², L = 20" (500 mm)
- Assembly parts

87 (2200)	79 (2000)	1 set	7548.000

Extension kit for ground rail, vertical

For system-compatible expansion of the star grounding on the vertical potential equalization rail.

Supply includes:

- 15 grounding leads 6 mm², L = 20" (500 mm)
- Preassembled, with ring terminal and wire end ferrule
- Ground terminals, (2.5 – 16 mm²)
- Assembly parts

Packs of	Part No.
10	7549.000

Cable management

Routing

Cable management panel

The cable routing chamber has cut-outs from above, into which the patch cables can be inserted. The cable management panel is equipped with a flap and quick-release fasteners at the front, for optimum access to the cables. From the rear, the cables can be inserted via a cut-out with brush strips. With accommodation facility for cable clamp straps 7610.000 or 7611.000.

Material:
Carbon steel

U	Depth inches (mm)	Packs of	Part No.
2	3 (85)	1	5502.235

Color:
Black RAL 9005

Accessories:
Cable clamp straps, see below.

Horizontal cable management with hingeable/removable cover

Attaches to the 19" rack mount and provides cable management side to side. Available in 1 U or 2 U.

Description	Packs of	Cable Diameter (sq. in.)							Part No.
		0.15	0.17	0.19	0.21	0.23	0.25	0.27

Cable clamp strap for patch panels

To provide strain relief of incoming or outgoing data cables. Optionally available with spring brackets for accommodating and contacting the cable screen. Connection to the patch panel is by means of bolts on the panel itself.

Material:
Carbon steel, 14 ga (2.0 mm), zinc-plated

Supply includes:
Assembly parts

Design	Packs of	Part No.
Without cable screen contact	1	7610.000
With spring clips for contacting the cable screen	1	7611.000

Cable tie

The super-fast solution for fastening cables to the enclosure profile or mounting system parts. Simply clip into the round hole patterns.

Length inches (mm)	Packs of	Part No.
6 (150)	100	2597.000

Cable management

Routing

Nylon tape

For tidy cable routing. Supplied on a reel for

cutting to the required length.

Unlike cable ties, nylon tape

- protects the cable sheathing

- is easily reopened and

- is reusable

Length ft (mm)	Width inches (mm)	Packs of	Part No.
16 (5000)	0.6 (16)	1	2203.400

Nylon loop

With the nylon loop, secured cables are easily released, allowing individual cables to be added or removed. Ideal for sensitive data cables (fiber-optic/Cu), as it avoids indentations on the cable sheathing. In addition, the nylon loop may be screw-fastened to the round system holes or attached using a quick-release fastener.

Color:

Black

Supply includes:

Quick-release fastener

Width inches (mm)	Length inches (mm)	Max. cable diam. inches (mm)	PU	Part No.
0.8 (20)	5 (130)	1.2 (30)	10	7072.220

0.8 (20)	12 (300)	3.5 (90)	10	7072.240

Also required:

Screw 2486.500 for screw-fastening to the round hole pattern, see page 60

Quarter-turn cable fastener

Adjustable hook and loop fastening strap provides flexibility for bundling cables. Strap attaches to cabinet with a quarter turn base.

Strap length inches (mm)	Packs of	Part No.
17 (420)	10	9969.599

Quarter-turn nylon tape supports

- For simple, fast cable attachment
- Tool-free mounting in the system hole pattern with a quarter rotation
- Direct use on the horizontal TS section, on the support strips and mounting rails of the 19" (482.6 mm) interior installation on the cable route or on system chassis with mounting flanges
- Length of nylon tape: 16" (400 mm)

Material:

Plastic

Supply includes:

10 supports including nylon tape

Packs of	Part No.
10	5502.155

Cable management

Routing

Cable manager

Packs of	Part No.
10	5502.405

- For system-compatible cable deflection while complying with minimal bending radii and to accommodate surplus cables and excess length. The elements may optionally be used individually or in combination for cable routing. They may be combined into semi-circular or circular elements.
- Suitable for use on corners and edges to allow protected cable routing around them.
- Mounting clips for use above the arc hold the routed cables back within the elements. The elements are also bayable in an axial direction to allow U-based cable routing to the mounting rail, or channelling of the cable sections.

Material:

Plastic, UL 94-V0

Color:

Black RAL 9005

Supply includes:

Mounting clips and assembly parts

Cable guide ring

For flexible, system-compatible cable routing at the side of the 19" (482.6 mm) mounting frame or on 19" (482.6 mm) mounting rails.

Material:

Carbon steel, zinc-plated

Supply includes:

Mounting accessories

Dimensions inches (mm)	Packs of	Part No.
5 x 3 (125 x 85)	10	7111.900

Cable management panel with cable routing bars 19" (482.6 mm)

For horizontal management of the patch cables with cable routing bars. Opening the individual cable routing bars allows user-friendly modification and extension of the cabling.

Material:

- Panel: Carbon steel, spray finished
- Cable routing bars: Plastic

Color:

- Panel: Black RAL 9005
- Cable routing bars: Black

U	Aprox. bar depth mm (inches)	No. of bars/U	Packs of	Part No.
1	3 (80)	5	1	5502.225

Cable routing channel

19" (482.6 mm)

To hold the patching cables.

Material:

Carbon steel

Roof system supports for cable routes

The depth-variable support system may be attached to all 32 – 47" (800 – 1200 mm) deep TS enclosures with external screw-fastening of the roof plate. The integral hole pattern, for screws or cage nuts, support the attachment of most common cable route systems. May be combined with TS IT fan mounting plate. In combination with system bar, suitable for accommodating additional cable guide rails or pipelines. For front of rack mounting.

Packs of	Color	Part No.
2	RAL 7035	7831.472
2	RAL 9005	5502.135

Material:

Carbon steel

Surface finish:

Powder-coated

Accessories:

- Metal multi-tooth screws 5.5 x 13 mm, 2486.500, see page 60.
- Cage nuts M6, 8800.340.

Cable route

For cable clamping and routing with network and server applications

- Mounting across the entire depth with 32" (800 mm) width, mounting only behind the second 19" (482.6 mm) pair of mounting rails with 24" (600 mm) width
- Tool-free, fast assembly
- Alternatively suitable for screw-fastening
- Multi-functional openings for cable management accessories

Material:

Carbon steel

Color:

Black RAL 9005

Height inches (mm)	Packs of	Part No.
79 - 87 (2000 – 2200)	1	5502.120

Accessories:

- Cable ties, nylon loops, see page 69, 70.
- Cable guide rings, see page 71.
- Cable routing bars, see page 72.

Cable management

Routing

Cable management panel

Organizes and stores cables in the 0 U space. Includes attachment points for tool-less quarter turn cable management accessories and PDU mounting locations. Attaches securely to the frame.

Color:

Black RAL 9005

Note:

Only for use in 28" - 32" (700 - 800 mm) wide cabinets.

Dimensions		Packs of	Model No.

Air Flow Management

Fans

Fan mounting plate for TS IT

For active ventilation. For use in the cut-out integrated into the roof plate. The unit may optionally be extended with additional fans.

Technical specifications for one fan:

Uses 7980.000 fans, see below for further details.

Technical specifications of thermostat:

- Rated operating voltage: 250 V
- Temperature range: +41° to +131° F (+5° to +55° C)

Supply includes:

- Fan unit
- 2 fans
- 1 thermostat
- Open connection cable
- Assembly parts.

Note:

Connection via distributor box or country-specific connector.

Fan expansion kit

For retrofitting various fan units or to supplement the fan mounting panel and modular fan roof.

Technical specifications 7980.000:

- Rated operating voltage: 230 V
- Power consumption: 15/14 W at 50/60 Hz
- Air throughput (unimpeded air flow): 94/106 cfm (160/180 m³/h), 50/60 Hz
- Noise level (unimpeded air flow): 37 dB (A)
- Operating temperature range: +14° to +131° F (–10° to +55° C)

Technical specifications 7980.100, 110:

- Rated operating voltage: 230 V
- Power consumption: 14/12 W at 50/60 Hz
- Air throughput (unimpeded air flow): 64/71 cfm (108/120 m³/h), 50/60 Hz
- Noise level (unimpeded air flow): 34 dB (A)
- Operating temperature range: –4° to +158° F (–20° to +70° C)
- 7980.110 includes 6' cable with NEMA 1-15 plug

Technical specifications 7980.148:

- Rated operating voltage: 48 V (DC)
- Power consumption: 7.7 W
- Air throughput (unimpeded air flow): 108 cfm (184 m³/h)
- Noise level (unimpeded air flow): 43 dB (A)
- Operating temperature range: –4° to +158° F (–20° to +70° C)

5 x 5 x 2 (119 x 119 x 38)	1	7980.148

Supply includes:

- Fans
- Assembly parts
- Connection cable 24" (0.61 m)

Split rear door fan

Split rear door fans take advantage of the front to rear airflow of most servers. The design allows for positioning the fan assembly in the most critical location within the cabinet. Two high pressure fans provide the ability to exhaust hot air out the rear of the enclosure at a dramatically higher rate than traditional roof mount fan trays. The result is cooler operating equipment, even with very high enclosure heat loads.

Supply includes:

- 2 fans per assembly (210 cfm total)
- Includes 10 ft (3048 mm) cord/plug, mounting hardware
- Can be used for venting through roof by installing system bars/dual brackets (not included)

Volts	Total cfm (m³/hr)	Enclosure width inches (mm)	Color	Part No.

			Black RAL 9005	9969.939

Air Flow Management

Air baffle plate for TS IT

- To separate the hot/cold zones within an enclosure with aisle containment or when using an LCP system
- With all-round brush strip for collision-free shielding with installed bar systems on the outer mounting rail
- For width 32" (800 mm), 6 U blanking panel additionally included

Material:

Carbon steel, plastic UL 94 V0

Surface finish:

Spray-finished

Width x height inches (mm)	Packs of	Part No.
