

Produce fresh  
treats right  
in front of your  
customers

## > PERFORMANCE AND QUALITY

In addition to creating classic Gelato and Sorbets, ideauno can also mix up delicious made fruit smoothies.

In just a few minutes the gelato is ready to be served to your customers.

## PERFORMANCE AND QUALITY

**Just 3 steps**  
to make a real  
artisanal gelato

Pour the refrigerated mix into the freezing cylinder

Press the Production button

Once the desired consistency has been reached, extract with a spatula

**Independent refrigeration system:** each cylinder can prepare your gelato in just a few minutes, directly in front of your customers.

**Freezing cylinder in motion, self-adjusting scraper blade** for total cleaning and performance of the cylinder.

**Modular technology** that adapts to the design of the room and customer needs.

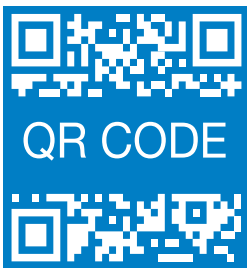

## > CONVENIENCE

The **spatulas** supplied are specially designed to facilitate the extraction and presentation of the product.

Scan the **QR Code** on the front of the machine to access the most up to date equipment information: Instruction Manual, Carpi Care kit & Carpi Clean kit.

Refrigerated spatula holder integrated in the top so the extraction spatulas are always ready.

## > SAVINGS

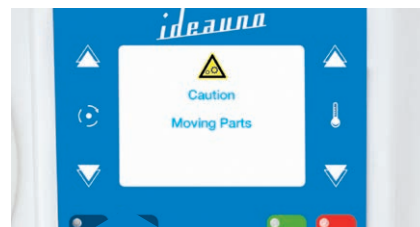

Ideauno allows energy savings thanks to high efficiency electric motors and high performance condensers.

## > SAFETY

Emergency button to stop the machine.

Display that alerts the user when the cylinder is moving.

## > HYGIENE

Washing can be sped up by using the **defrost** function, which heats up the cylinder.

**Washing module** consisting of a hand sprayer and a liquid aspirator to speed up and facilitate cleaning operations without dismantling the freezing cylinder. For complete cleaning, the cylinder can be completely disassembled.

**Ergonomic lid** to protect the freezing cylinder.

### Carpi Care kit

request them from your dealer to always keep your machine hygienically perfect.
