

This space is equipped with Hands-Free Controls

DIGITAL BUILDING ACCESS WITH THE AMATIS CONTROLS APP

This building has Amatis Controls enabled throughout, which means occupants may be able to avoid touching lighting and fan switches, doors, thermostats, shades and various appliances. The building operator has checked off () which features are enabled in this building below for your convenience.

To take advantage of these features:

1. Contact your building operator to request access to the Amatis App.

Your Building Controls Contact: _____

2. Download the Amatis Controls app in the Apple or Google Play store on your smartphone.

ENABLED IN THIS BUILDING:

DIGITAL SWITCHES

Use the Amatis App for Switch Control, eliminating the need for touching physical switches. Use this to turn lights on, off and dim.

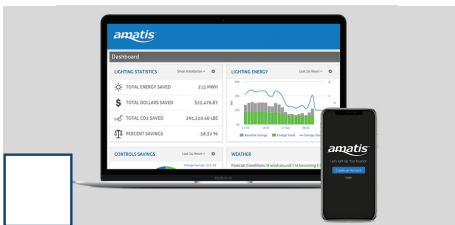

DIGITAL PLUG LOADS

Use the Amatis App to identify and adjust controlled plug loads, including ceiling fans, power to outlets, AC units, and appliances.

CHECK ROOM OCCUPANCY

Use the Amatis App to check if a room is occupied or not to maintain a safe social distance.

REMOTE APP ACCESS

You can make changes to the lights and controls in this building remotely with the Amatis App, from anywhere.

AUTOMATED SYSTEMS

Amatis Controls are integrated with the Building Automation System in this building, with systems like HVAC, lighting, doors, blinds/shades and plug loads.
