

1624 Shelters

Dimensions:

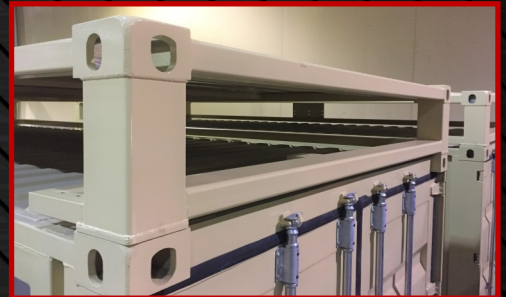

20'-0" (L) x 8'-0" (L) x 9'-6" (H)

Problem Solved:

Modified container solution was needed for customer's multi-source energy system and controls.

Description:

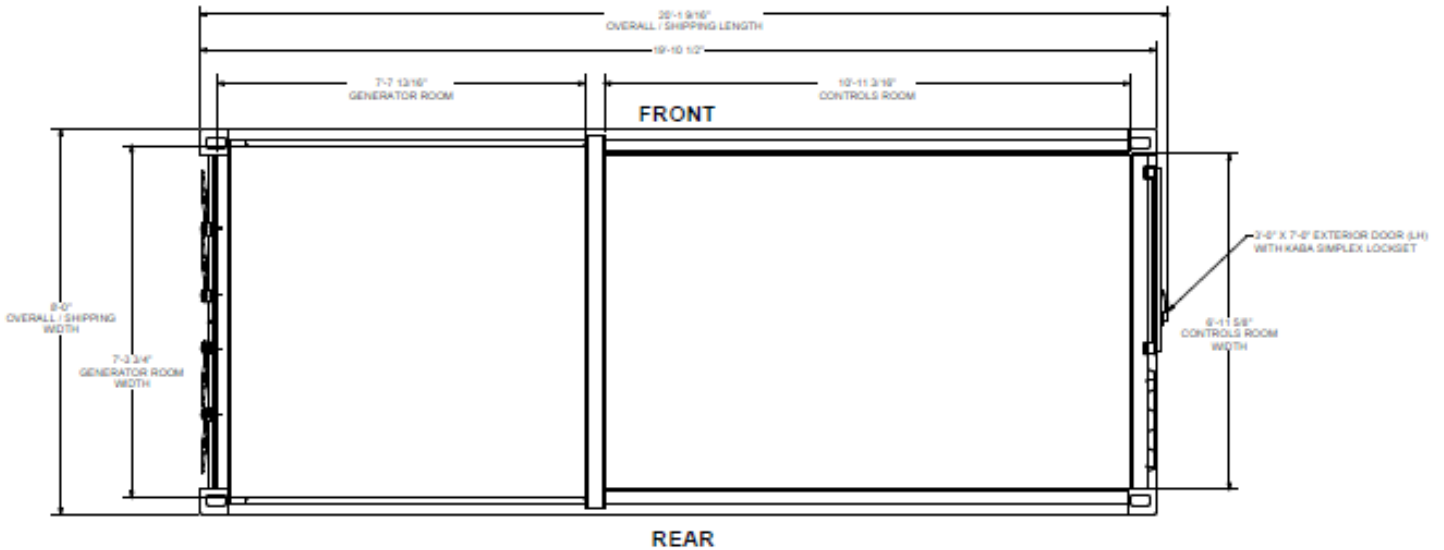

This project included four identical containers completed in two parts each. The first part was a modified container with a general room and an insulated controls room. The second part was a "top hat" to be added to the top of the container to house the customer's expanding solar panel system.

At DropBox, Inc., we are Reinventing the Box™ with high quality, customizable, sustainable shipping container modifications and engineered enclosures that make us the design/build partner for customers around the world. With a proven track record for quality and customer service, DropBox, Inc. has planted its roots firmly throughout numerous industries and built longstanding relationships with customers through custom products that meet their company specific needs.
