Automated Screening. Effective Hiring. Trusted Service

Key sector trends impact finding, hiring & onboarding new talent

## Regulation & Compliance

businesses required to meet higher levels of adherence and measurement, with employees who possess the required skillsets and the very highest trustworthy behaviour.

## Minimising risk and building resilience

business must drive urgency to reduce exposure to risks in their operations across multiple markets, and strengthen its resilience to shocks and explicit targeting, particularly in relation to cybersecurity.

## Automation

greater need for automated technology solutions, coupled with the development of related processes, to improve productivity and performance, with the speed of change and competitive environment accelerating.

## Increased sector competition

greater pressure to make key and accurate and strategic decisions and ensuring the right workforce to achieve sustained competitive differentiation.

## Global talent hiring

remote hiring during the pandemic has focused the mind on using new tools and techniques to find, hire and onboard specialised technical skills.

## RECOMMENDED PRIORITY CANDIDATE HIRING BACKGROUND CHECKS

 **Identity Checks**

**Civil Litigation Checks** 

**Academic Achievements Checks** 

**Credit Checks** 

**Reference Checks** 

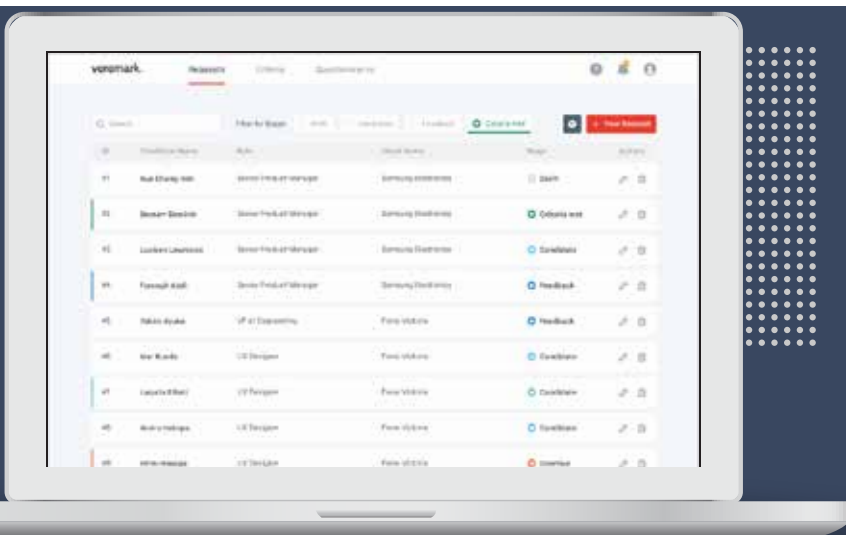

**Global Sanctions Checks** 

**Criminal Background Checks**
