Pages 5-6: Reading Your Report

Page 7: Support

- 1 Click on your company's unique link to go to Decision Doc, a secure online platform that will help you choose your health plan.

You will receive your secure link through emails from your HR team, as well as flyers with a QR code.

You can access Decision Doc on any device!

- 2 Share a little about yourself so we can pull up plan information specific to you.

Do your best to enter your information exactly as your HR department may have it on file.

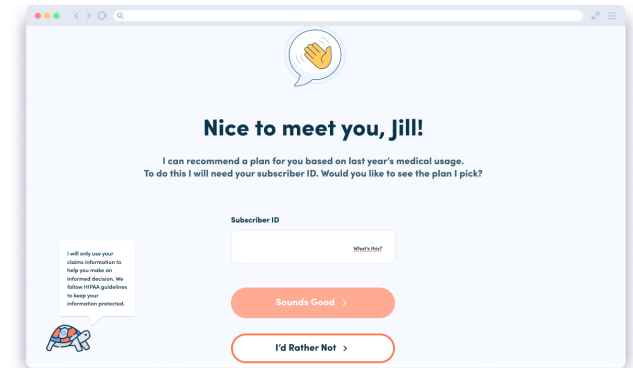

If you don't have a work email, enter your personal email here.

You may see an option to view a Claims Snapshot. The Claims Snapshot compares your health plan options based on your past health care usage (your claims). Only employees that meet certain criteria will view this option.

1 Enter your subscriber ID to see a report comparing your health plan options based on your past health care usage (your claims).

Your subscriber ID is your health insurance ID number, also known as your member ID, located on your health insurance card.

2 View your claims snapshot! Based on your past health care usage, this chart shows you which of your plan options will save you the most money next year.

How we calculate this: Based on your health insurance claims, we calculate the total cost of each health plan, then rank them in order of savings. Total costs include your annual premium plus estimated out-of-pocket costs, minus any employer HSA/HRA contributions.

3 What's next?

- **A.** If your health needs are NOT changing next year, download your report then navigate to your enrollment platform and choose the highest savings plan.
- **B.** If your health needs WILL likely change (which is probable!), answer some questions on the next few pages and receive an up-to-date report.

How we calculate this:

We totaled the cost for each plan option based on your actual health insurance claims and compared them. We used claims from 04/01/2020 - 03/31/2021 for you and any family member on the plan.

Your January 1, 2022 plan options:

	HSA 2700	HSA 5000	HSA 3500
Deductible (Individual / Family)	\$5,000 / \$10,000	\$2,700 / \$5,400	\$3,500 / \$7,000
Out-of-Pocket Limit (Individual / Family)	\$6,500 / \$13,100	\$2,700 / \$5,400	\$3,500 / \$7,000
Employer HSA/HRA Contributions	\$1,800 / \$0	\$2,235 / \$0	\$2,700 / \$0
Annual Premium	\$4,050	\$2,626	\$3,051

Are your health needs changing next year? Answer some questions for an updated report. Start Questionnaire

1 Choose whether you would like to answer questions about your upcoming healthcare usage online or over the phone.

Questions take 5-6 minutes online. If you choose the phone option, our analysts will call you directly.

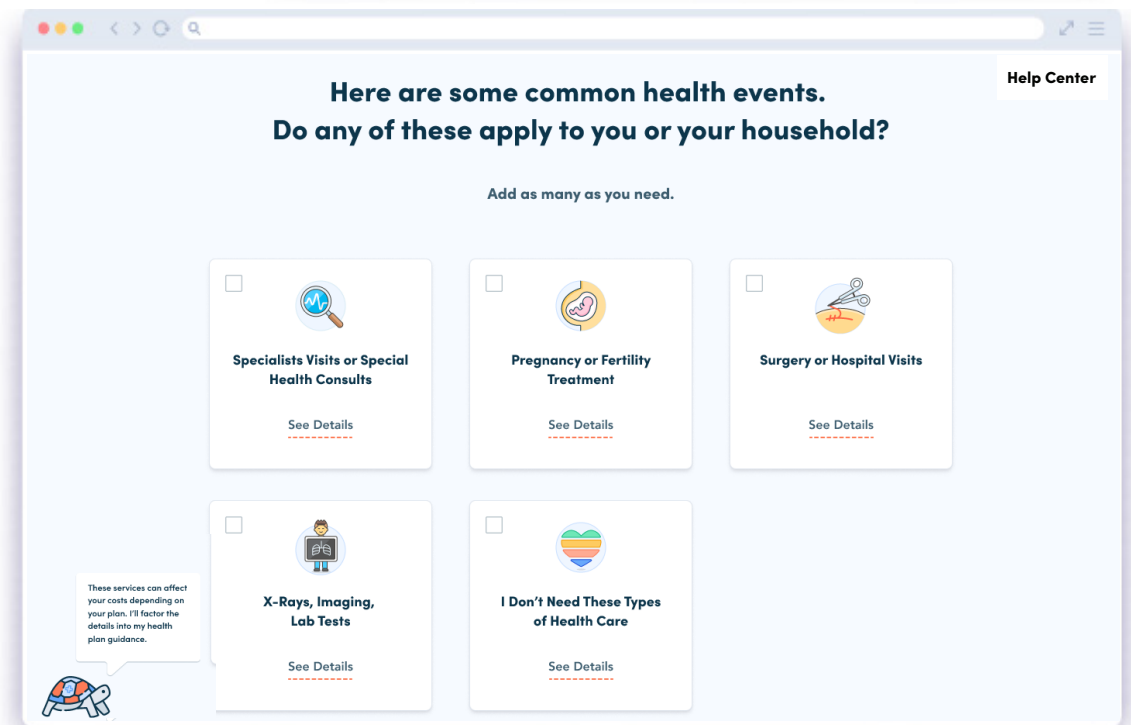

2 Take a questionnaire about your expected health care usage.

We'll ask about major health events, like surgeries and specialists, and routine care, like your prescriptions and PCP visits.

Questions if you stay online?

- Click "Help Center" to email support or schedule a call with an analyst.
- Don't know a term with a red dotted line? Click on the "glossary" button to view definitions and resources.
- **Theo the turtle** has helpful hints and resources.

If your employer offers an HSA-eligible plan, we'll share your employer's contribution and ask whether and how much you'll contribute. This helps us give you accurate guidance!

See which health plan will save you the most money next year.

We highlight who's on the plan and the major factors contributing to costs.

View your health plan options ranked by:

- Total costs (how much we predict you will spend on health care over the year)
- Total savings (how much we predict you will save on health care over the year)
- The worst case scenario (the most you could spend on health care over the year)

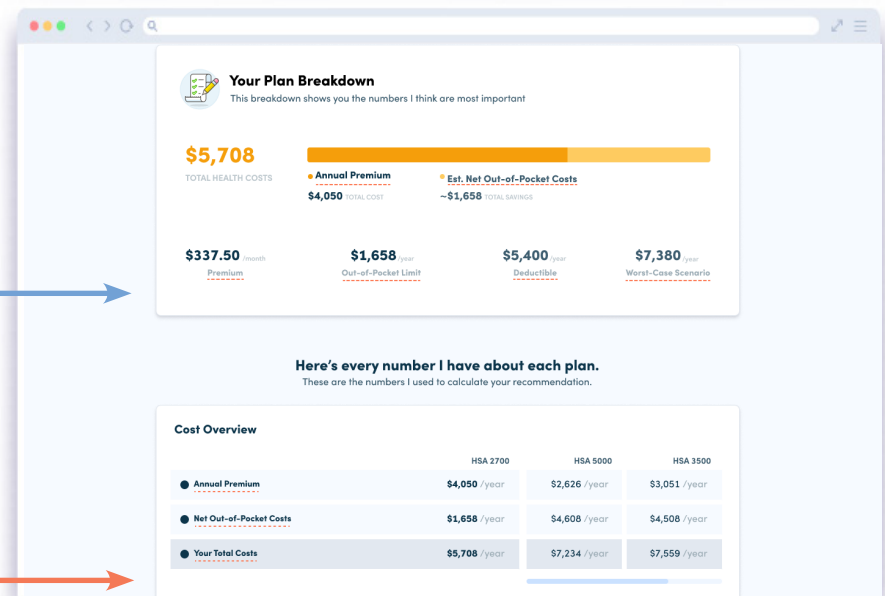

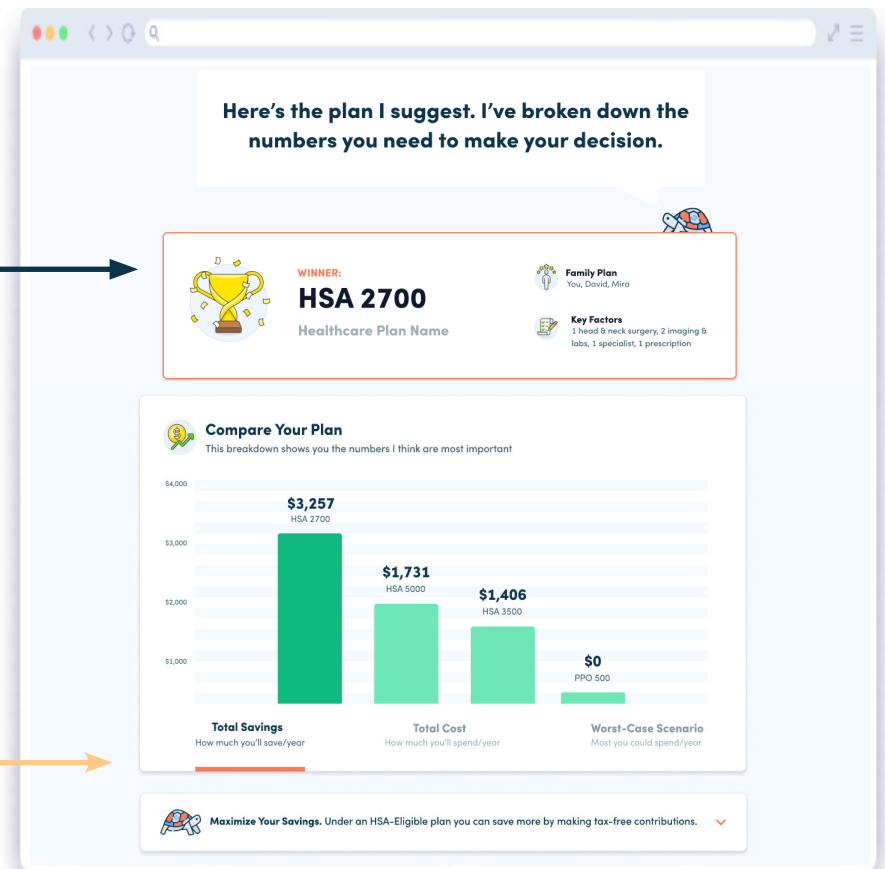

Click on the different titles below the bar graph to see each different view.

Understand how your health care costs will breakdown over the year for the winning plan:

- See how much of your health care costs go to premiums vs. out-of-pocket costs
- See your monthly premium, out-of-pocket limit and deductible
- See the most you could need to pay

See how your health care costs breakdown for each plan option:

- See how much of your health care costs go to premiums vs. out-of-pocket costs
- Compare these numbers for each plan option

Reading Your Report

Get more details on your plan options and a full breakdown of how we calculate your expected costs.

Schedule a call or email us with questions about your report.

Access resources.

Helpful hints:

- Download your report before you exit your window or restart the questionnaire!
- Keep an eye out for Theo turtle call-outs! Click on them for more information.

The screenshot shows a web browser window with the following elements:

- Plan Details** and **Cost Details** sections with dropdown arrows.
- An **important message** section featuring a turtle icon and the text: "Here is an important message. It is usually tailored to the needs of each employer and their employees."
- Email Us** section: "Need some help? Email us anytime with questions about this estimate and one of our experts will get back to you." Includes an "Email Us" button and an envelope icon.
- Schedule a Call** section: "If you'd feel more comfortable going over your health estimate with an expert schedule a call." Includes a "Schedule a Call" button and a headset icon.
- Feeling Overwhelmed?** section: "Check out these free resources to get insights on HSAs, common questions, and more." Includes a "See all →" link and five resource cards:
 - HSA Retirement 101
 - How to Save in Health
 - Worst-Case Scenario Planning
 - How to Save for Health Care
 - RolloverHSAs
- Bottom navigation: "Download" button, "Take Questionnaire Again" button, and "Enroll in Plan" button.

Download your report to view later.

Take the questionnaire again.
