HEALTHWAY® FAMILY OF BRANDS LAUNCHES GROUNDBREAKING APP EXCLUSIVELY FOR PARTNERS

The Global Leader in Air Purification Solutions Launches the HealthWay® Partner Portal

Pulaski, NY – March 23, 2022 – HealthWay® Family of Brands and [Moxo](#) have joined forces to create an all-in-one app to make access to HealthWay® products transparent to partners.

HealthWay® has introduced an innovative application specifically to support their essential partners. HealthWay® shows trust to their partners who spread brand awareness and support for this prominent air purification company. This inclusive application will harmonize HealthWay® and partners while they work together towards accomplishing goals and improving indoor air quality across the globe. Some features include chat, knowledge base, collaboration, and file sharing. HealthWay® Partner Portal is approachable and user-friendly to all partners.

This tool was created to benefit the partners of HealthWay® so they can locate information they may need on-the-go, or immediately chat with customer-help. Partners will have the ability of speaking 1-on-1 with a HealthWay® representative, or with the entire group within HealthWay® Partners. There is access to quick links to find calculators to estimate space/unit needs, answers to common HealthWay® questions about products and services, contact information of employees or partners, spec sheets breaking down the features of their products, and much more.

Using the file share element, HealthWay® Partners can find, share, and collaborate on uploaded files from all devices, at any time. Partners have the advantage of sharing a to-do list with their account manager and working together on indoor air quality projects of all shapes and sizes.

[Christian Cobb](#), the VP of Marketing at HealthWay® states "It's imperative that HealthWay® Partners know as much as we do about our indoor air quality solutions. When they can talk about IAQ and speak to the challenges people are facing every day - they are able to create better, safer spaces. In my opinion, this is one the best ways we can further our mission."

Cobb also explains why only HealthWay® Partners are given access “as it is meant to be a tool to help them sell, educate, and find information regarding our products quickly. Customers could utilize this application, but at the time, I believe that between our website and Customer Success Team, we are providing a great experience.”

To gain access to this advanced application, partners can directly request access through an account manager who will submit a survey to the partner. After that, the portal can then be setup in as little as a few hours!

Leave feedback, quickly navigate to key information, and gather all the HealthWay® information the team needs with the HealthWay® Partner Portal. This app will make the buying and selling process efficacious. This app is available to be downloaded from the [Apple Store](#) or get it on [Google Play](#).
