

bold Unlock a
keyless life.

Be Bold.

Bold Connect.

Connect your Bold Smart Lock with the internet. Easily open the door remotely, share temporary access with others and let the door lock automatically. You're in control - anytime, anywhere. Do we need to say more?

Unlock a keyless life and connect to

- multiple smart locks with one Bold Connect
- insights of all lock activities, like PIN
- activations and battery level status
- digital safety by end-to-end data
- encryption on all connected devices
- trusted visitors thanks to two-factor user and device authentication
- the easiest set-up as available locks are automatically discovered

MECHANICAL SPECIFICATIONS		COMMUNICATION	
PRODUCT DEFINITION	The Bold Connect enables your Bold Smart Lock to be permanently connected in order to manage and control your locks from the app from anywhere. With a slim form factor, mounting options and a USB(C) interface for an external flexible power supply the Bold Connect can be easily installed anywhere, out of sight, or integrated into existing access control solutions.	BLUETOOTH 5.0 LONG RANGE	The communication between Bold Connect and a Bold Smart Lock is via Bluetooth 5.0 Long Range. This enables the Bold Connect to connect and communicate more easily with many Bold Smart Locks.
HOUSING	PC, PC/ABS, RoHS, REACH compliant	WIFI	The Bold Connect is connected through Wi-Fi in order to communicate with your telephone. Permanent Wi-Fi (802.11 b/g/n) internet connection required.
