

ADVANCED MYELOFIBROSIS SCORING TOOL

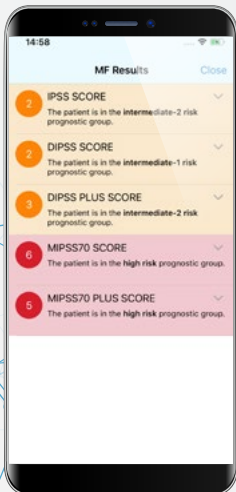

NOW AVAILABLE IN

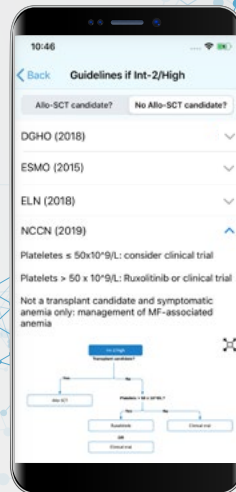

NEW

Enter **quickly** and **easily** all relevant characteristics to risk-score your patient in the palm of your hand.

Instantly see how **five different scores** categorise your patient based on entered values.

Immediately know the **treatment recommendations** of **DGHO, ESMO, ELN and NCCN** for each scoring result.

 ONCOassist® is also supportive for lymphoma, CML, CMML, DLBCL and benign hematologic diseases.

FIND ONCOASSIST ON YOUR FAVOURITE APPSTORE
