

Professional **CRM** for Business Owners

You have a lot on your plate. Make things easier on yourself by tracking your contacts and customers, and sending bulk email — all using the same tool. It's easy to use, and completely free.

Manage and organize your contacts in one powerful, easy-to-use database.

Piles of business cards? Messy spreadsheets? Unorganized LinkedIn connections? Stop managing your relationships in silos.

Professional CRM takes minutes to learn and makes it easy to track every detail of your business relationships — all in one place. Manage your entire sales pipeline and organize and respond to all your customer support issues, all with the same tool.

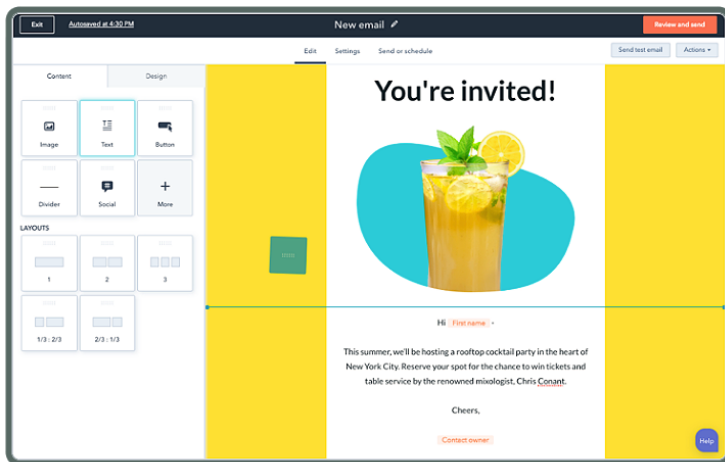

MANUFACTURE SMARTER

Monitor your contacts' website activity, and identify new prospects visiting your site. Did we mention it's all free?

FREE FEATURES YOU'LL LOVE

- ✓ Contact management
- ✓ Prospect tracking
- ✓ Pipeline management
- ✓ Ticketing

Email your contacts in bulk (for free!), and capture new leads in your sleep.

Create personalized emails in bulk to nurture your relationships with contacts and customers. It's easy when you use the same tool for email and contact management.

Add forms to your website to convert visitors into qualified business leads — no coding required.

And with built-in reporting, monitor the number of new contacts you're capturing, and keep track of all the tasks and activities that make up your relationships with customers.

FREE FEATURES YOU'LL LOVE

- ✓ Reporting dashboard
- ✓ Contact management
- ✓ Deals & tasks
- ✓ Company insights
