

# WE MAKE IT EASY TO COMPLETE COMPLEX REPAIRS FOR MORE VEHICLE BRANDS

## Work smarter, not harder with the NEWEST generation of RAP®

Drew Technologies is the industry leader in vehicle reprogramming; and we understand that J2534 programming can be a difficult task. We revolutionized the automotive aftermarket industry with the introduction of our Remote Assist Program (RAP®). Our RAP® team has remotely assisted automotive repair and collision technicians, successfully programming thousands of Asian and domestic vehicles!

RAP®2 expands your technician's capabilities to include European vehicles with the same easy-to-use process! Additionally, pre/post scan and remote diagnostic capabilities will be added to RAP®2 in the future.

So, if you're an Automotive Repair or Collision Shop, or if you're a Technician, RAP®2 is the solution for you!

- Finish the job correctly
- Don't lose business to the Dealer
- Increase productivity
- Increase customer satisfaction

Powered by  
DREW TECHNOLOGIES

# SAME RELIABILITY WITH MORE CAPABILITY!

## How does it work?

It's as easy as 1... 2... 3...!

**1.** Give us a call to be scheduled

**2.** Plug in the RAP® kit

**3.** Power up the RAP® kit

## We flash the car!

Drew Technologies guarantees success. Enjoy the peace of mind and customer satisfaction, knowing the vehicle has been successfully programmed!

## Flash Availability Check

For \$40, we can check to see if a flash is available for your particular vehicle. If it's determined that an update does exist for your vehicle – and if you allow our RAP® Technicians to do the flash – we will apply that \$40 toward the \$125 flash fee!

# J2534

## Design

RAP®2 was designed and developed as a true turn-key remote solution for any technician or shop regardless of experience.

- Windows Tablet PC
- An additional hard drive to allow for future expansion as new OE's are added
- J2534 device with 4G modem
- Diagnostic Network Subscription included
- OEM subscriptions
- 90-amp battery maintainer capable of handling European amperage requirements
