

GET THE BEST OF BOTH WORLDS

 **IVS True-OE™**
Authentic OE Scans

 **IVS QuickScan™**
Fast Aftermarket Scans

GET OEM & AFTERMARKET SCANNING, PROGRAMMING AND LIVE EXPERT SUPPORT

NEW ScanSafe™ Provides Scan Guidance to Reduce
Cycle Time and Improve Repair Quality

IVS True-OE™ – Authentic OE Scans and OE Scan reports run
by Opus IVS expert technicians using OEM-licensed software

IVS QuickScan™ – Fast aftermarket vehicle scan in 2 to 4 minutes

IVS 360™ – Live repair guidance from 100+ OE-trained Master
Technicians who can remote directly into the vehicle and provide
repair assistance

Plus, NEW ScanSafe has access to workflow efficiency tools:

CCC ONE® Scan/Invoice Integration – Save time per repair with a direct integration into the
leading estimation software. Scan reports and invoices feed directly into the vehicle's work file for direct transmittal
to insurers

***NEW & IMPROVED IVSWizard™** – Scan guidance to help technicians select between an IVS True-OE™
Scan or IVS QuickScan™ based on recommendations that are customizable

***NEW IVSMap™ ADAS Blueprint** – Includes list of ADAS systems on the vehicle, calibrations required,
targets needed and ALLDATA service information for each DTC present

*Available Q1, 2022
