Topic: TFS Update: Reminders, Car Pool Info, and Lunch

Dear TFS parents, faculty, and staff:

I know there are a lot of questions about new procedures, and [here](#) is the information regarding our initial plan for morning and afternoon Car Pool. I say initial because, while based on our “normal” procedures, it has significant changes to morning car pool procedures, and has a longer afternoon schedule. We will test it out next week when we come on the staggered attendance days. I do realize that the procedures are hard to read and understand, so we are making a video on Monday that we will share with everyone so we are ready for next week.

Some changes to our lunch program to start out the year:

- We will have hot lunch starting on 8-24-20. Look for more info on ordering to follow next week.
- We will be 100% Peanut-Free through Labor Day to assure we know of any allergy concerns.
- Lunch will be in the classrooms each day.
- Milk is not available yet, and there is no access to microwaves! Please plan accordingly!
- Initially, we will not have “lunchables” available, so please assure that your student has a lunch each day!

Please do understand that these are wholly different plans and procedures than we are used to having at TFS. We are working hard to formulate, test, and put plans in place to accomplish all we need to do; and they will surely change as we refine and improve them! Remember, the watchwords for all of us this year will be patience and flexibility.

Thank you again for your prayers for, and enthusiastic support of, our faculty and staff as we come back to a totally new environment. We appreciate your patience as we put together a great experience and a superior effort in meeting the academic needs of your children!

More info coming soon!

With much appreciation,

Michael Watson

Principal at The Franciscan School
