

Workday. Amplified.

CapTech Increases the Impact of Your Workday Investment

Workday is a game changer. It is unrivaled in delivering comprehensive Human Capital Management (HCM) support for your organization, yielding breakthrough HR and operational efficiency as well as unified, financial insights.

Yet simply completing an initial deployment of this powerful platform does not maximize your full potential of Workday's HCM and financial capabilities. Through our demonstrated experience and flexible delivery framework, CapTech can help you maximize the benefits and drive your business forward.

A Proven Workday Partner

CapTech is a Workday Services Partner with a dedicated team of master builders, creators, and problem-solvers who help clients grow efficient, successful businesses.

CapTech first experienced Workday as early adopters of Workday's full platform, and those customer-first roots inform our consulting approach. Starting with an end-user mindset, we ensure that every Workday project is tailor made for the nuanced needs of every client and that their investment is amplified through breakthrough integration, empowerment, and insight.

OUR SERVICES

CUSTOMIZED TECHNOLOGY INTEGRATION

With Workday at the core, we help clients build customized solutions - from deep integration of recruiting, payroll, and CRM tools to seamless data assimilation across your HCM ecosystem.

ADVANCED ANALYTICS AND INSIGHTS

With advanced Prism reporting, our data scientists deliver holistic data governance, analysis, visualization, and reporting, as well as actionable insights that help you take action.

PHASE "X" DEPLOYMENT

Whether your organization is going live with a new module or needs support maintaining a complex environment, we define tailored strategies to maximize the impact of Workday for your specific needs.

PLATFORM AGILITY AND TEAM SUPPORT

We assess needs and map out goals and bring seasoned Workday experts who support agile platform management, roadmap planning, and backlog management.

CHANGE MANAGEMENT AND USER ADOPTION

Our change management practitioners use proven methods to deliver comprehensive Workday rollout support, which help you maximize buy-in and minimize confusion.
