Designed for
today's living

and tomorrow's
environment.

Welcome

At Deslaurier, we specialize in creating custom cabinetry in harmony with today's varied lifestyles. We collaborate closely with our customers to create ideal living spaces and make home an even better place to be.

And we do so with a commitment towards bettering our environment and reflecting a greener outlook for tomorrow.

Let us design your next custom space.

Open the door to what Deslaurier can offer you.

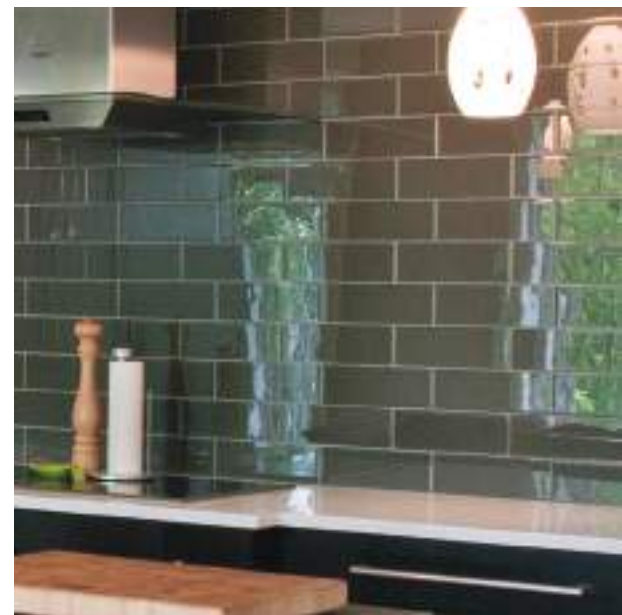

We know cabinetry

Deslaurier is proud to offer you the best in design, manufacturing, installation and servicing of custom cabinets. It's our one and only speciality.

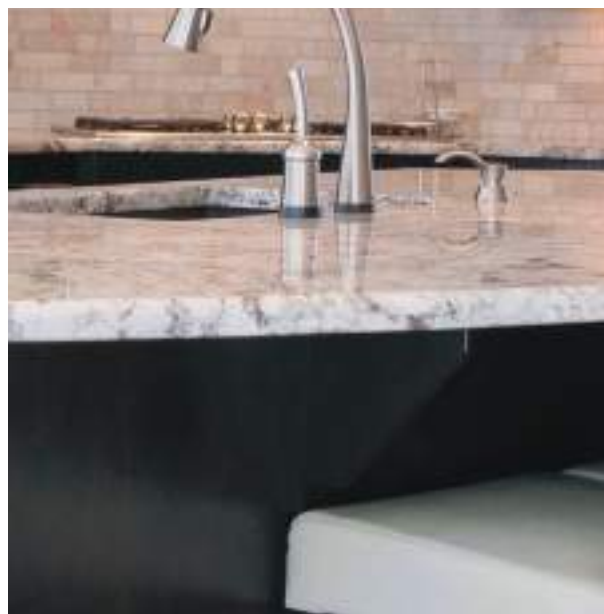

For more than 30 years, our team has provided exceptional quality products and design solutions specifically tailored to the individual needs of our customers. Everyone at Deslaurier is an expert in their field, and is devoted to making your home exactly what you always imagined it could be.

We stand by
our customers

and we stand
by our work.

Surpassing
expectations
is our promise
to you.

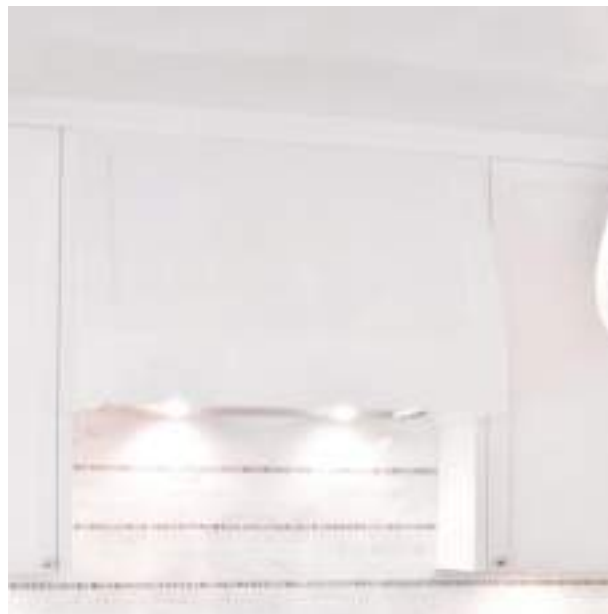

We are committed
to excellence

Over the years, we've honed our process to ensure that every piece we design is manufactured to the highest quality standards. At our state-of-the-art manufacturing facility, we use the latest technology to bring you durable, long-lasting, Canadian products of superior craft and value. Our cabinets represent an excellent investment in your home and are built using premium woods, veneers, finishes and hardware, making them both beautiful and functional.

We know how
much your home
matters to you.

And that
matters to us.

We want what you want

Our talented design consultants are avid listeners, skilled at identifying exactly what you need and making it happen.

You can be as involved in the design as you want—leave your mark or leave it to us. If you already have a clear vision in mind, let us know. If you'd like advice from our professionals, we're here to serve.

Whatever you decide, you'll have access to our extensive collection of products, colours, finishes, hardware and accessories, allowing you to create a spectacular living environment that fits your lifestyle and showcases your unique personality.

If you're happy,
we're happy.

Our customers are our priority

We offer friendly, attentive customer service, before, during and after your purchase. Because we manufacture our own products locally, we control both the quality and delivery timeframe of your cabinets. We'll make sure you get what you asked for, when we promised it.

Once your cabinetry is in place, we'll take the extra step of visiting your home to make sure the results are what you wanted. Even after that visit, we're available if you need us; we back up our products with a 20-year warranty.

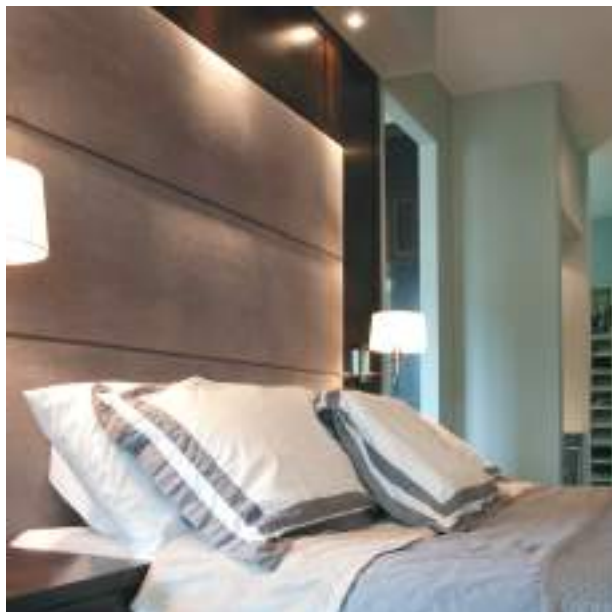

Going green has
never been easier.

Designed for green living

At Deslaurier, we spend our days designing ways to improve your indoor living space. And you'll be happy to know we give just as much thought to the state of our natural environment.

We're committed to using green manufacturing practices and materials. When possible, we carefully choose Environmentally Preferred Products (EPP) or materials with no added formaldehyde for our core construction materials. In our finishing operations, we use water-based stains and topcoats, which are less harmful to the environment, our employees and you. Deslaurier's base product is green by nature, but we also offer additional green options for customers who elect to be as environmentally friendly as possible.

Our green philosophy is at the heart of everything we do. It drives us to be our best and ensures an efficient, streamlined process that produces minimal waste.

We love
kitchens. But
there's more to
us than that.

Whatever you
need, we have
what it takes.

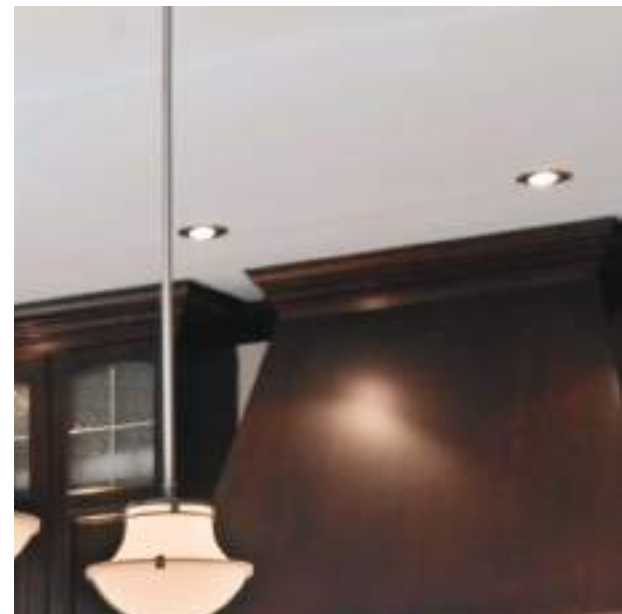

More than just kitchens

Deslaurier excels at designing and manufacturing custom cabinetry for a wide range of projects, including bathrooms, entertainment units, closets, home offices, mudrooms and fireplace surrounds. Our innovative designers are ready and waiting to bring all your ideas and desires to life.

The time is now.

The choice is
yours.

Let's get you started

Through every step of the process, we take into consideration the lifestyle you want to lead. We offer a wide range of cabinetry styles, colours and materials, so that you can choose what works best for you—from the look and feel to how green you want your living space to be.

Door Styles

The door style says it all

Choose from our near-endless supply of available door options
to create the environment that says “home” to you.
