- \\ Journey Mapping and Change Management
- \\ Professional Testing and Training Services

BEST-OF-BREED SYSTEMS INTEGRATION & PROFESSIONAL TESTING

We are experienced in implementing Oracle Utilities software and cloud solutions, which come with a lot of moving parts. Our expertise across advisory, program/project delivery, product and vendor management and integration, change management, professional testing, and post-implementation support services round out the full lifecycle of your transformation. We bring a partner-first mindset with a flexible and transparent approach to help achieve your goals; it's our differentiator.

ORACLE®

Oracle Utilities

We provide premium managed services, hosted and cloud solutions, and offshore support to give you both the confidence and 24/7 support required when migrating legacy systems.

Triniti Consulting

Our best-of-breed implementation services ensure a seamless transition to the suite of Oracle Utilities solutions and products, whether on-premise or in the cloud. We're experts in this.

VERACITY

Veracity

Our expertise in program and project management, professional testing and organizational change management prepares you for a successful transition and lays the groundwork for a sustainable future.
