TROY PageWide 452
Spectrum UV Printers

Unbeatable Fraud Deterrence.

Add multiple layers of document authentication and fraud deterrence to high security applications with full color print capabilities combined with TROY Security Inks. **Add overt and/or covert security to any document. Works with blank or preprinted UV security paper stock.** And locking paper trays keep high value paper locked and protected from theft.

Utilizing TROY's UV technology, **organizations can add personalized layers of document authentication and fraud deterrence** to any printed document.

ORIGINAL

UV LIGHT

Unmatched Technology.

Each printer and security ink has been developed to fit the unique needs of UV security printing worldwide. With the ability to print full color combined with both visible and invisible fluorescing UV elements, you get added layers of security and authentication.

True Full Color Printing

TROY firmware provides full color capabilities combined with UV printing in a single pass

Covert & Visible Inks

Visible or invisible with fluorescing authentication for both under proper verification light

Paper Tray Locks

Prevent theft of your valuable paper stock while regulating chain of custody

Proven, Efficient HP PageWide Technology.
