Optimization Services

Sitecore Managed Services

Shift your focus back to your customers

Save time and reduce expenses by eliminating costly on-site visits and troubleshooting efforts. Developing a strategy for routine monitoring and management will save you the stress of reacting only when things break.

Our experts focus on the health of your Sitecore environment so you can focus on what is important to you.

Our Sitecore managed services include:

- Migrations to cloud
- Sitecore architecture planning
- Application monitoring
- Preventive maintenance
- Sitecore upgrades and updates
- Automated builds and deployments
- Security and compliance

RDA's Proven Delivery:

- 30 Years in Business
- 5 East Region Offices (*PA, MD, VA, NC, GA*)
- 115 Consultants (*PM, Architects, Developers*)
- Award Winning Sitecore Commerce Partner
- Over 1,500 Customers

- RDA will take on the complexity of designing, hosting and maintaining your Sitecore environment.
- Application monitoring ensures early detection of issues.
- Greatly reduce the risk of experience outage.
- Scale your Sitecore investment into new markets with speed and confidence.
