

BI·Clinical™

Accelerate Your Healthcare BI & Analytics Strategy

750+ pre-built KPIs | BIC-RMM | BIC-Audit 360

 **CitiusTech**

BI-Clinical offers an integrated, sustainable and scalable approach to analytics and reporting, to effectively meet value-based care needs

Multi-server architecture and SaaS deployment option for easy integration and rapid scalability

Largest library of pre-built KPIs with 750+ clinical, financial, operational and data quality rules

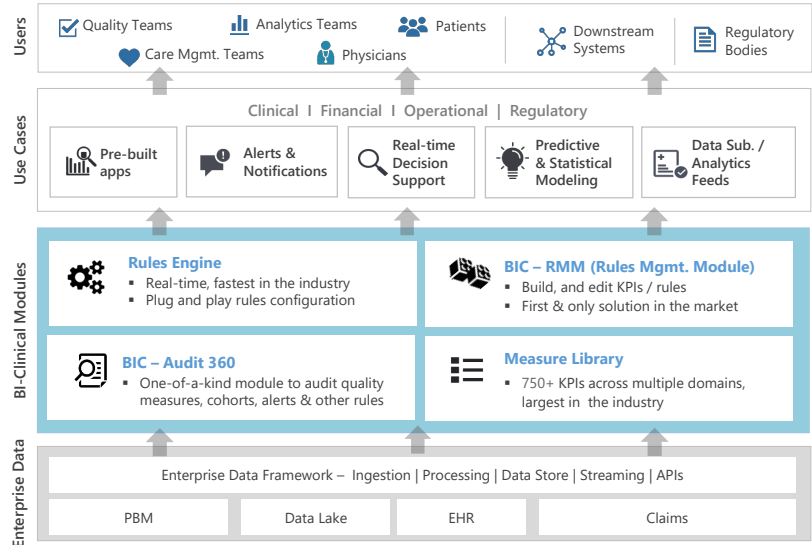

Certified data submission vendor for both provider (CMS) & payer (NCQA) measures

BI-Clinical: Comprehensive Platform for Healthcare BI & Analytics

BI-Clinical™ is a modular, configurable and scalable platform for healthcare BI & analytics that comprehensively covers major clinical, financial, operational and regulatory initiatives. With 750+ pre-built KPIs and measures, BI-Clinical offers an integrated approach to address the healthcare organization's most critical quality reporting and decision support needs.

BI-Clinical is used by large health systems as well as leading health plans to drive value-based initiatives, monitor patient and member populations and proactively close gaps-in-care. The high-performance rules engine enables organizations to configure and deploy custom quality measures based on their business needs and is scalable to process up to 100 million patient records.

BI-Clinical Architecture

BI-Clinical: Key Modules

BIC-Rules Engine

Fastest rules-engine in the healthcare industry

- Highly configurable rules engine to compute performance measures across domains
- Speed-of-business in real-time or batch (daily, weekly, monthly or ad-hoc runs)
- Certified data submission platform for provider and payer measures

BIC-RMM

Award-winning solution to build and manage complex measures and ad-hoc rules

- 60% improvement in process efficiency for quality measure management
- 40% faster go-lives due to time saved in measure deployment and testing

BIC-Audit 360

Real-time audit module for quality measures, cohorts, clinical alerts and other rules

- Suite of analytics tools, dashboards and rich visualizations for informed decision making
- Complete support for CMS / NCQA audits
- Pre-built report library with traceability by provider, measure and regulation

BIC-Analytics

Advanced analytics for accelerated decision making and gap closure

- Powerful, intuitive, easy-to-use tools for report creation and customization
- Out-of-the-box starter reports (e.g., Quality, HEDIS, MIPS, MU, HCC, STAR, Provider 360, etc.)

Success Stories

Large Regional Health System

Implemented BI-Clinical for comprehensive analytics and data submission. 52% improvement in performance scores and 70% rise in physician compliance.

Leader in Renal Care Services

Advanced analytics using BI-Clinical for clinical performance and real-time clinical decision support. Covered 550,000+ lives and 8M visits annually.

Leading state HIE

BI-Clinical to create disease registries, identify at-risk populations and build integrated analytics. Tracked 180+ quality measures, covering 1M+ lives with 12M+ visits annually.

About CitiusTech

CitiusTech is a specialist provider of healthcare technology services and solutions to healthcare technology companies, providers, payers and life sciences organizations. With over 4,000 professionals worldwide, CitiusTech enables healthcare organizations to drive clinical value chain excellence - across integration & interoperability, data management (EDW, Big Data), performance management (BI / analytics), predictive analytics & data science and digital engagement (mobile, IoT). CitiusTech helps customers accelerate innovation in healthcare through specialized solutions, platforms, proficiencies and accelerators. With cutting-edge technology, world-class service quality and a global resource base, CitiusTech consistently delivers best-in-class solutions and an unmatched cost advantage to healthcare organizations worldwide.
