H-Scale	Modular, configurable and scalable platform for data acquisition, processing, governance, quality, security and advanced analytics .
SDE	Stars Decision Engine - AI/ML driven solution for Medicare Advantage Plans to improve their CMS Star ratings

Success Stories

Offline Health Monitoring App for a Large MedTech firm: CitiusTech's knowledge and experience in GCP PaaS helped in faster evaluation and development of components. Delivered a system which can be extended easily to handle higher data volumes in future.

Migration of Legacy apps to GCP: Delivered a single source of truth for patient records across client systems. Highly available, independent and flexible solution based on workflows for patients, facilities, etc.

About CitiusTech

CitiusTech (www.citius.tech) is a leading provider of healthcare technology services, solutions and platforms to over 130 organizations across the payer, provider, medical technology and life sciences markets. With over 5,000 technology professionals worldwide, CitiusTech powers healthcare digital transformation through next-generation technologies, solutions and accelerators. Key focus areas include healthcare interoperability & data management, quality & performance analytics, value-based care, omni-channel member experience, connected health, virtual care coordination & delivery, personalized medicine and population health management. CitiusTech has two subsidiaries, FluidEdge Consulting (www.fluidedgeconsulting.com) and SDLC Partners (www.sdldapartners.com), with deep expertise in healthcare consulting and payer technologies, respectively. CitiusTech's cutting-edge technology expertise, deep healthcare domain expertise and a strong focus on digital transformation enables healthcare organizations to reinvent themselves to deliver better outcomes, accelerate growth, drive efficiencies, and ultimately make a meaningful impact to patients.
