

Value-driven Engagement: Collaboration Portal

3+ | Years of relationship
4 | Engagements to date

Business Problems

Need for a **single platform** that can drive Early Patient Diagnosis, Early intervention and personalized medicine

Inadequate org-level collaboration due to limitations in exposing data assets to key stakeholders' groups

Data exists **in silos** and client has multiple data sources

Currently, users **cannot generate insights** from the datasets available

CitiusTech Solution(s) & Value Delivered

- ▶ Developed **Personalized Health Care** platform to drive evidence-based outcomes and collaboration in oncology
- ▶ Leveraged **complex data sources** including Genomics, Imaging, EHR, Clinical trial data sets etc.
- ▶ Built **collaboration space** to access, process, analyze, visualize, share and publish data assets that will speed up research and help collaborate better
- ▶ Enabled the ability to **reuse access-controlled datasets** for various research activities
- ▶ Developed HIPAA, fair data principles, GDPR and safe harbor **compliant solution**

2,000+ **> 90%**
data scientists use the platform *collaboration process effectiveness improvement*

Role-based access **3+ data**
compliant with key regulations *sources ingested (imaging, genomics, claims etc.)*
