

Value-based Care and Quality Performance

Digital Transformation Solutions that Support VBC and Quality Performance

The value-based care era is ripe with hurdles:

- Changing business and regulatory requirements
- Fragmented analytics systems
- Patient 360 enrichment despite rapidly-evolving data landscape
- Low data maturity and lack of actionable insights
- Cross-cutting performance and correlations

Overcoming these challenges requires a healthcare technology partner with digital solutions, experience, and proven success in all aspects of volume-to-value.

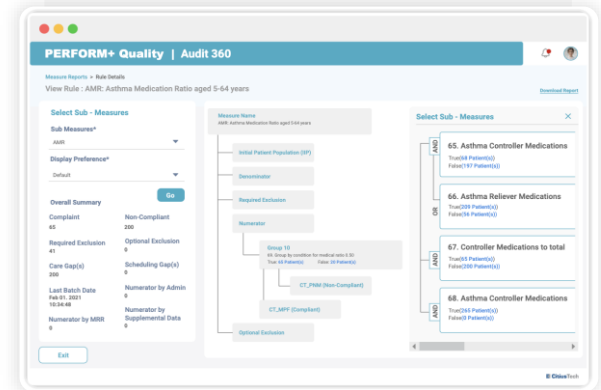

CitiusTech brings a unique blend of strategic consulting, pre-built platforms, solution accelerators, and engineering-grade professional services in a flexible global delivery model within a growing partnership ecosystem.

Our solution blends technology and consulting with a focus on delivering a tailored customer experience that addresses unique pain points, VBC and quality performance objectives.

PERFORM+ Quality

Industry-leading analytics to enhance quality performance.

Over 750+ KPIs across clinical, financial and operational domains - the largest measure library in the industry.

Value-based Care and Quality Performance Success

We have delivered many VBC and quality performance solutions to payer and provider organizations:

- Created analytics solutions for QPP program, covering 28K providers that included near real-time processing across multiple specialties and metrics for large physician organization
- Delivered VBP consulting and created implementation playbook for leading Blues plan
- Designed HEDIS reporting and Medicaid quality management program, including PHM platform, yielding 32% increase in efficiency for leading AMC and plan
- Align insights with speed-of-business requirements and real-time decision support
- Measure-monitor-act to proactively close care gaps
- Improved quality and experience ratings
- Improved utilization and care/process efficiencies
- Reduced provider abrasion and improved satisfaction

Key Offerings

VBC DataOps

- Interoperability/FHIR, data curation, integrated data models, sandboxes
- Patient 360 and longitudinal record
- Complex / streaming data: unstructured, SDoH, imaging
- Modern architectures, unified governance, and managed services

VBC Performance Management

- Quality, cost, experience, risk analytics, and regulatory reporting
- VBP contracts and bundled payment modeling, setup and monitoring
- Clinical and financial workflow optimization
- Business analytics, managed services

VBC Digital Engagement

- Patient, caregiver engagement applications, including SMART on FHIR Apps
- Consumer analytics
- Care pathway digitization, journey-based consumer applications

About CitiusTech

With 6,500+ healthcare technology professionals worldwide, CitiusTech helps leading healthcare and life sciences organizations reinvent themselves by accelerating digital innovation, leveraging next-gen technologies, and driving data convergence across the healthcare ecosystem. We provide strategic consulting, digital engineering, data, analytics & AI, specialized platforms and end-to-end solutions to over 130 organizations across the payer, provider, medtech and life sciences industries. Our key focus areas include healthcare interoperability data management, quality performance analytics, value-based care, omni channel member experience, connected health, virtual care delivery, real-world data solutions, clinical development, personalized medicine and population health management.

Our cutting-edge technology expertise, deep healthcare domain expertise and a strong focus on digital transformation enables healthcare and life sciences organizations to deliver better outcomes, accelerate growth, drive efficiencies, and ultimately make a meaningful impact to patients.
