

# BIC-Audit 360

## Real-time Audit & Traceability

### Comprehensive, Real-time Audit & Traceability of Measures, Cohorts & Rules

With increasing focus on value-based care and measuring quality of care delivered, organizational readiness for audit needs will be a key factor in successful compliance. BIC-Audit is a one-stop solution that offers a comprehensive way to address the healthcare organizations' diverse audit requirements.

BIC-Audit 360 enables organizations to generate real-time audit reports across financial, contractual, operational and regulatory domains leveraging 700+ pre-built KPIs across a spectrum of initiatives – HEDIS, MIPS, MU, PQRS and more. It provides physicians, quality management professionals, practice administrators and third-party vendors with a simple self-service interface not only to generate audit reports but also to determine the correctness of measure calculations. It enables teams to access information at the speed of business across multiple domains, initiatives and reporting periods, with granular level details for analysis

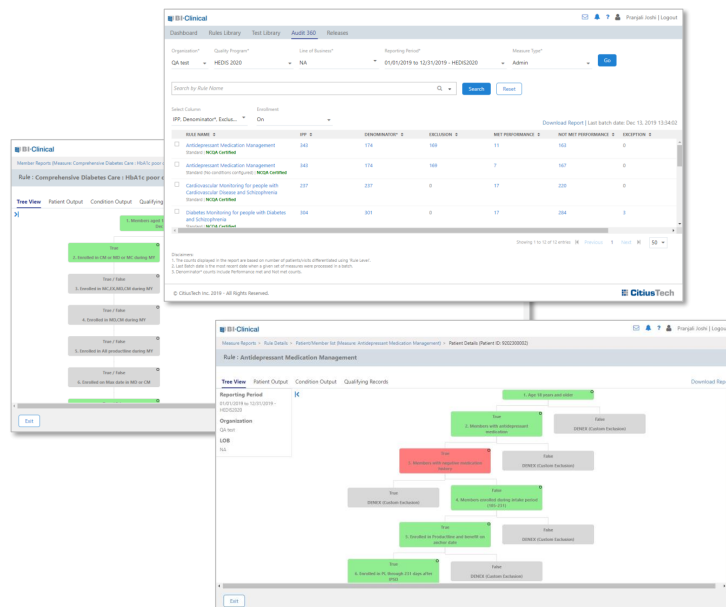

BIC-Audit 360 also provides real-time measure and member compliance status with traceability (by measure, provider, line of business or regulation) leading to enhanced quality management.

### BIC-Audit: Highlights

- Real-time measure compliance reports against specific data sets
- Complete documentation management for attestations
- Links to federal register referencing the specific audit regulation
- Complete integration with CitiusTech's BI-Clinical platform (ONC and NCQA certified) to make information available at the speed of business

## BIC-Audit 360: Key Value

- Access to 700+ pre-built KPIs as well as custom measures to accelerate implementation
- Extensive measure coverage with reporting for varied types of measures – utilization, process, outcome-based measures, etc.
- Ad-hoc auditability, with real-time reporting and increased accuracy of submissions
- Complete traceability through continuous audit logging, to capture all user activities, change history and timestamps
- CitiusTech's 10-year comprehensive support for all clinical quality measures developed and supported by BI-Clinical
