FOR IMMEDIATE RELEASE

CITIUSTECH ACHIEVES HITRUST CSF® CERTIFICATION TO MANAGE RISK, IMPROVE SECURITY POSTURE AND MEET COMPLIANCE REQUIREMENTS

HITRUST CSF Certification validates CitiusTech is committed to meeting key regulations and protecting sensitive information.

Princeton, NJ (20 August 2018) – CitiusTech, a leading provider of healthcare technology solutions and services, today announced its Project Governance System (PGS), Intranet and supporting infrastructure have received Certified status for information security by HITRUST.

HITRUST CSF Certified status demonstrates that CitiusTech's Project Governance System, Intranet and supporting infrastructure meet key regulations and industry-defined requirements and are appropriately managing risk. This achievement places CitiusTech in an elite group of organizations worldwide that have earned this certification. By including federal and state regulations, standards and frameworks, and incorporating a risk-based approach, the HITRUST CSF helps organizations address these challenges through a comprehensive and flexible framework of prescriptive and scalable security controls.

"The HITRUST CSF Certification is validation of CitiusTech's focus on building world-class processes to ensure the highest levels of healthcare data protection. We are delighted to receive this certification and look forward to further strengthening our data security architecture in the years to come," said Punam Shejale, Vice President, Process Excellence and Information Risk Management, CitiusTech.

"HITRUST has been working with the industry to ensure the appropriate information protection requirements are met when sensitive information is accessed or stored in a cloud environment. By taking the steps necessary to obtain HITRUST CSF Certified status, CitiusTech is distinguished as an organization that people can count on to keep their information safe," said Ken Vander Wal, Chief Compliance Officer, HITRUST.
