

Healthcare Cloud Practice

The CitiusTech Healthcare Cloud Practice: Overview

Healthcare Cloud strategies can be very challenging with issues around migration, integration, utilization, performance / availability, data governance and security.

The CitiusTech Cloud Practice helps healthcare organizations leverage cloud technologies to accelerate transformation, drive efficiencies and support patient care in a secure, scalable and cost-effective manner. We have one of the largest teams of certified healthcare cloud professionals with expertise across public, private and hybrid cloud deployments. Our team leverages global best practices to provide cutting edge, scalable, robust, HIPAA compliant and cost-effective solutions.

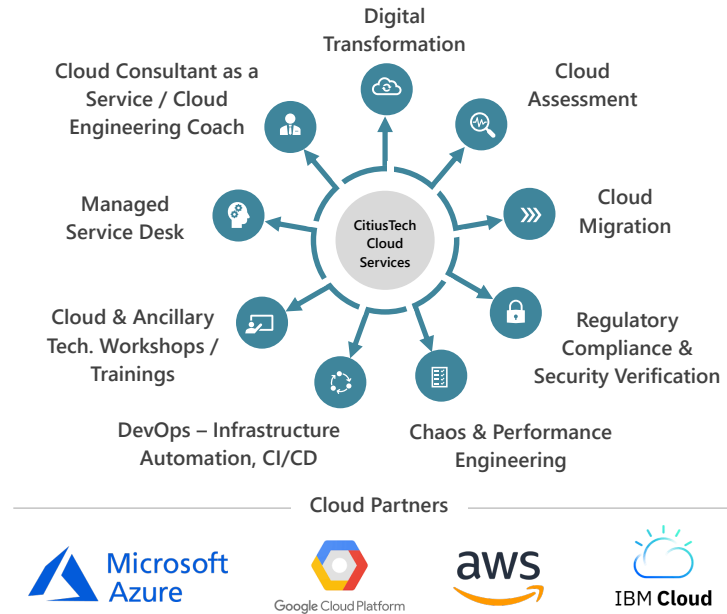

The CitiusTech Cloud Practice enables the digital transformation journey for healthcare organizations by providing design, build and operational capabilities for cloud native applications. For healthcare organizations new to the cloud journey, we help define cloud implementation roadmaps, assess cloud and security readiness and enable a phased migration to the cloud.

Key Capabilities

- Product engineering, migration, optimization and Managed Services
- Development and management of cloud-native applications for healthcare
- Security, fault tolerance, availability, disaster recovery and multi-tenancy
- Migration of on-premise workloads to the cloud using virtualization and containerization
- Deployment optimization - IaaS, PaaS, SaaS models

CitiusTech Cloud Practice: Highlights

- Building and migrating (Lift & Shift) large enterprise healthcare applications to cloud infrastructure
- 600+ cloud experts for cloud transformation, platform set up, QA and managed services
- Strong partner relationships with leaders - Microsoft Azure, Google Cloud, AWS and IBM - across healthcare cloud consulting and engineering
- Robust consulting framework that includes platform benchmarking, ROI calculator, cost-benefit analysis, compliance review, etc.
- **Integrated Cloud Suite (ICS):** HIPAA compliant, multi-cloud management suite to maximise the ROI from cloud investments

About CitiusTech

CitiusTech is a specialist provider of healthcare technology services and solutions to healthcare technology companies, providers, payers and life sciences organizations. With over 4,000 professionals worldwide, CitiusTech enables healthcare organizations to drive clinical value chain excellence - across integration & interoperability, data management (EDW, Big Data), performance management (BI / analytics), predictive analytics & data science and digital engagement (mobile, IoT). CitiusTech helps customers accelerate innovation in healthcare through specialized solutions, platforms, proficiencies and accelerators. With cutting-edge technology, world-class service quality and a global resource base, CitiusTech consistently delivers best-in-class solutions and an unmatched cost advantage to healthcare organizations worldwide.
