

# Healthcare BI-DW Practice

## The CitiusTech BI-DW Practice: Overview

CitiusTech has one of the strongest healthcare Business Intelligence and Data Warehousing (BI-DW) practices in the healthcare industry – supporting providers / IDNs, payers and healthcare IT vendors.

CitiusTech has built deep expertise in designing and developing EDW, BI/analytics and reporting solutions in healthcare for areas such as population health management, care and wellness management, regulatory reporting and efficiency / cost management.

The BI-DW Practice enables healthcare organizations to define enterprise information management (EIM) strategies and build solutions for data acquisition, data modelling, data quality, Master Data Management (MDM), data security and data governance. It offers solutions to set up enterprise data architecture (EDA), operational data store (ODS), DWH and data marts.

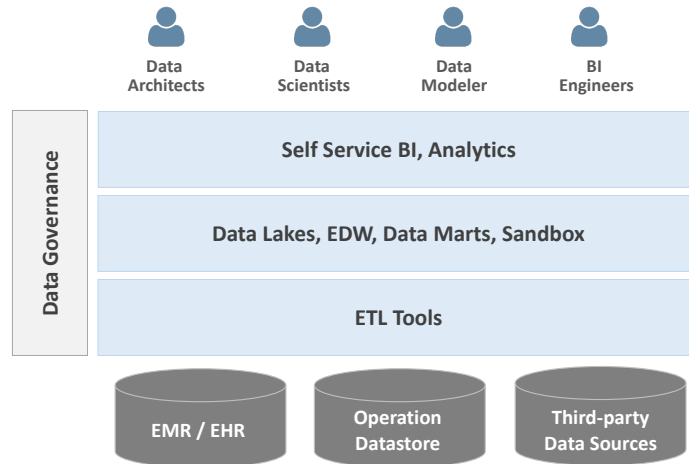

CitiusTech has built strong technology partnerships with leading BI solutions including Microsoft SQL / SharePoint, IBM Cognos, Oracle, Tableau, QlikView, etc.). to deploy best-in-class BI-DW solutions for its clients.

### Key Offerings

- Clinical Integration / Interoperability
- Healthcare Data Modelling
- EDW Architecture Evaluation and Implementation
- Data Governance and Security
- BI/Analytics and Reporting
- Regulatory Compliance
- Content Management
- Data Quality and Lineage
- Master Data Management
- Mining and Predictive Analytics
- Quality Reporting
- Clinical Informatics

## BIDW Practice: Highlights

- Specialized practices for Cloud, Big Data, security, performance, Data Science, data visualizations
- Integration, interoperability and visualization tools and platforms
- Expertise in industry leading healthcare data models from IBM, Oracle, Teradata
- Healthcare accelerators to support Enterprise Data Warehousing
- 500+ HL7 / FHIR professionals
- 700+ integration and visualization engineers
- 200+ data scientists, healthcare data modelers and BI architects

## About CitiusTech

CitiusTech is a specialist provider of healthcare technology services and solutions to healthcare technology companies, providers, payers and life sciences organizations. With over 4,000 professionals worldwide, CitiusTech enables healthcare organizations to drive clinical value chain excellence - across integration & interoperability, data management (EDW, Big Data), performance management (BI / analytics), predictive analytics & data science and digital engagement (mobile, IoT). CitiusTech helps customers accelerate innovation in healthcare through specialized solutions, platforms, proficiencies and accelerators. With cutting-edge technology, world-class service quality and a global resource base, CitiusTech consistently delivers best-in-class solutions and an unmatched cost advantage to healthcare organizations worldwide.
