

## SCORE+ for CINs

Enhance contract performance, drive collaboration & accelerate gap closure

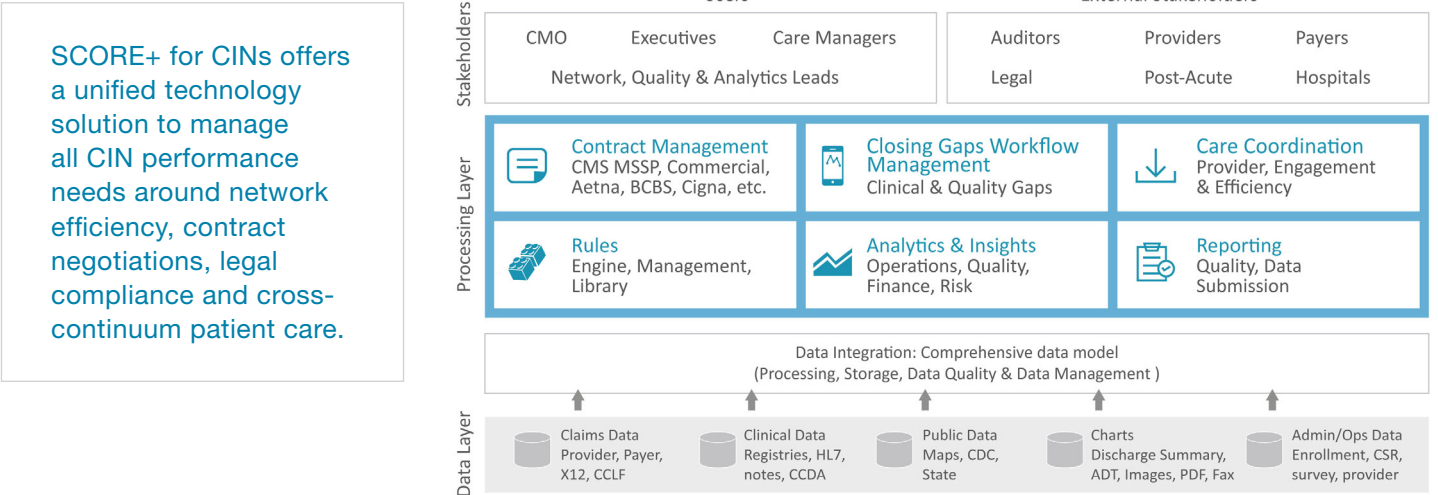

Population Health Insights • Contract Management • Closing Gaps • Quality Reporting

## Drive Efficiencies and Improve Population Health with SCORE+ for CINs

With the industry shift towards value-based care, Clinically Integrated Networks (CINs) are facing new cost and regulatory pressures. CINs need to demonstrate analytics excellence, greater value (to motivate providers to join and stay), strong negotiation ability, financial viability and legal compliance, while staying hyper-focused on the real goal – population health.

SCORE+ for CINs helps Clinically Integrated Networks accelerate quality reporting, manage risk-based contracts, enhance negotiation, drive collaboration, and more. Each component is tailored to CIN needs around analytics, network management, finance, payer strategies and provider engagement. The offering is complemented by CitiusTech’s specialized expertise around payer and provider data integration, which is critical for CINs to maintain clinical, financial, regulatory and legal compliance.

## SCORE+ for CINs: Key Components

<b>Contract Management</b> Complete support around defining, assessing, and managing risk-based contracts - to track compliance and strengthen negotiations. Covers CMS, MSSP and commercial contract needs.	<b>Rules Management</b> Powerful rules engine, unique Rules Management Module (RMM) and largest rules library in the industry. Coverage of all operational, financial, regulatory and clinical rules.
<b>Closing Gaps Workflow Management</b> Workflow-based approach to accelerate gap closure. Enables care teams to track and close clinical and coding gaps at the point-of-care, and schedule patient visits for follow-up actions.	<b>Analytics &amp; Insights</b> Configurable and interactive dashboards showing care gaps, contract performance, provider / measure scorecards, quality dashboard and other population health views.
<b>Care Coordination</b> Configurable workflows for population specific insights and care coordination processes. Enables easy targeting of cohorts through powerful, intuitive dashboards	<b>Reporting</b> Coverage of all quality programs and measure sets for regulatory, operational, financial and custom reporting needs. Additional flexibility to add custom reports or modify existing UI.

## SCORE+ for CINs: Key Partnership Advantage

### Built in Contract Management Module

- Comprehensive support to network managers in defining, assessing and optimizing risk-based contracts
- Ability to view performance of individual contract as well as combined performance of multiple contracts
- In-built features to determine potential Shared Savings opportunities tied to quality and cost improvements

### Population Analytics & Gap Closure

- Highly configurable dashboards to meet a diverse range of persona-based needs – CxOs, quality managers, network managers, care management teams, analytics teams, etc.
- 750+ pre-built measures and KPIs for exhaustive coverage of regulatory measures including ACO, PQRS, MIPS, MU, etc.
- Near real-time analytics across a wide variety of clinical and claims data to generate actionable insights that help improve quality and reduce cost
- Provision to drill down to patient / provider / measure / facility / service, to identify high-cost outliers at multiple points in the clinical value chain
- Ability to perform cost analytics based on various parameters such as disease, age, gender, region, payer, etc.
- Creation of custom workflows for faster closure of gaps at the point-of-care and setting up of actionable alerts

### Modular Architecture

- Modular architecture that allows the various end users to pick and choose components based on their specific needs
- Ability to manage clinical and claims data for CMS and commercial needs.

### Flexibility and Ease of Use

- RMM – the industry's first and only Rules Management Module that enables quality teams to define, configure and manage clinical rules without technical intervention / support
- Complete coverage of key regulatory measures - certified for both ONC and NCQA measures
- High degree of configurability – predefined workflow templates along with measures library
- Simplified integration with third-party measure engines, document management systems and workflow engines
- Pre-built as well as configurable dashboards for actionable intelligence and real-time decision support

## CitiusTech: Professional Services

CitiusTech's Professional Services team provides comprehensive support for implementation and management of SCORE+ for CINs.

### Data Management

- Clinical data integration / adapters
- Data warehousing & ETL
- MDM, data governance / quality

### Implementation

- Program management
- Strategy & technology consulting

## Fast Facts: Regional Health System

### Data Volume

- **117K+** Lives
- **4M+** Visits
- **106K+** Records of Medicare Data
- **88M+** Records of Clinical Data

### Quality Measures

- **9** PQRS Measures
- **15** MIPS Measures

### Benefits to the Customer

- **PQRS** - Avoided penalty of \$ 6M
- **MIPS** - Regulatory compliance / avoided penalty of \$ 4M

## About CitiusTech

CitiusTech is a specialist provider of healthcare technology services and solutions to healthcare technology companies, providers, payers and life sciences organizations. With over 2,900 professionals worldwide, CitiusTech enables healthcare organizations to drive *clinical value chain* - excellence, across integration & interoperability, data management (EDW, Big Data), performance management (BI / analytics), predictive analytics & data science and digital engagement (mobile, IoT). CitiusTech helps customers accelerate innovation in healthcare through specialized solutions, healthcare technology platforms, proficiencies and accelerators. With cutting-edge technology expertise, world-class service quality and a global resource base, CitiusTech consistently delivers best-in-class solutions and an unmatched cost advantage to healthcare organizations worldwide.
