

Azalea® RCM

We Know Billing. We Know Rural.

RCM services tailored to your needs.

With insurance verification, small balance write-offs, and upfront patient collections among top reasons for losing A/R* — the need to optimize billing and maximize reimbursements is at an all time high. Azalea Health's US-based billers are experts at the dynamics of rural health, such as Medicaid, bad debt, split billing and more. Additionally, Azalea EHR, which is 2015 ONC Certified for MU Stage 3 and QPP, is included when you choose Azalea RCM medical billing services.

Beyond Industry Standards

We don't just strive to meet HFMA and MGMA industry standards for days in A/R, insurance and self pay aging- we beat them.

Complete Visibility

Intuitive dashboards and detailed reporting provide full transparency into our RCM processes and the status of your claims.

Consulting

Experienced consultants complete thorough analysis of existing processes to identify process improvements and optimize collections.

Exceptional Support

From billers and coders to patient relation specialists, Azalea is dedicated to providing exceptional levels of service - just one reason why our customers rate their satisfaction with us 4.6 out of 5.
