

# Azalea® EHR for Rural Health Clinics

## Improving Care. Driving Revenue. Uniquely Built for RHCs.

A 2015 ONC Certified EHR that delivers more.

Azalea provides EHR, RCM and telehealth solutions designed with rural needs in mind. An intuitive workflow guides ambulatory clinicians through care delivery and promotes more efficient documentation. 2015 ONC Certified, Azalea EHR supports Meaningful Use Stage 3 and QPP reporting, and is designed to capture UB and 1500 related claims appropriately.

### Affordable

100% cloud-based with low monthly pricing. Or, get it FREE when you choose Azalea RCM medical billing services.

### Ease of Use

Document SOAP notes, send orders and capture billing - all from one, intuitive screen.

### Patient Engagement

Drive patient interaction with integrated appointment reminders, patient portal, mobile application and telehealth.

### Complete Care

Connect patient records and activities across the health system for a complete, 360° view of your patient's continuum of care.
