

Azalea EHR for Practices and Clinics

Solutions to Enhance Patient Care, Not Distract From It.

Conveniently connecting physicians and patients.

Azalea provides EHR, RCM and telehealth solutions designed with your practice in mind. An intuitive workflow guides ambulatory clinicians through care delivery and promotes more efficient documentation. 2015 ONC Certified, Azalea EHR supports Promoting Interoperability and QPP reporting.

Fully Integrated with Telehealth

Quickly conduct a telehealth session, schedule a follow-up visit, and confirm financials - all directly from a patient's record. Fewer clicks and less hassle results in greater productivity and efficiency.

Intuitive

Document SOAP notes, send orders and capture billing - all from one, easy to use screen. Secure Direct Messaging enables provider collaboration and helps you achieve maximum reimbursement.

Browser Based & Affordable

100% cloud-based with low monthly pricing, Azalea EHR eliminates the need for costly IT infrastructure. Get it FREE when you choose Azalea RCM medical billing services.

Patient Centric

Drive patient interaction with integrated appointment reminders, patient portal, mobile application and telehealth.
