

Welcome Back to Namibia

At Gondwana Collection Namibia we look forward to welcoming you back to our beautiful country, where the sun and our hospitality warm your heart and social distancing appears naturally in the wide open landscapes. We have, however, adapted the Standard Operating Procedures for all our service centres and lodges in line with the Government of Namibia's instructions to the tourism industry.

We want to provide our guests and employees with the safest possible environment, yet offering our guests a comfortable environment and an unforgettable Namibian experience.

Guest Arrival and Welcome

We greet you with a warm smile and consider your health and safety a top priority.

Guests are required to use the provided hand sanitiser; hand washing facilities are also available.

Our employees will be wearing face masks. We provide masks for guests who do not have a mask on their person.

Interaction with guests is contactless and social distancing will be maintained.

Restaurant and Bar

- Hand sanitisers are available upon entering communal areas including the reception and curio shop.
- We offer communal dining in the restaurant, however we apply social distancing by ensuring space between tables.
- Guests are welcome to have their complimentary tea and coffee at a restaurant table or in the lounge area. However, cappuccino and latte beverages are charged as per the beverage menu.
- Alcohol beverages will be sold to guests as per the On-Consumption Liquor License Regulations of the Liquor Act. This means no takeaway alcohol.

Cleaning of Rooms

Our guest rooms are thoroughly cleaned to make you feel safe and comfortable in your home away from home.

- Guests are welcome to advise on check-in if they wish to minimize housekeeping to avoid interaction.
- The Housekeeping team will wear gloves and face masks and use disinfectants for cleaning all surfaces and touchpoints (e.g. door handles, switches) when preparing and refreshing rooms.
- Each room will undergo a deep clean between guests checking out and next guests checking in.
- Bed sheets will not be replaced every day, as per our eco-friendly procedures, but can be changed upon request.
- All laundry will be done using strong disinfectant soaps; all linen is sundried and ironed.
- Any guest laundry will be washed individually.

Activities

Enjoy your fun in the sun!

- Swimming pools are open; use thereof are at guests' own risk. The number of loungers have been reduced and spaced to allow social distancing between guests.
- Activities take place in compliance with the prescribed social distancing and hygiene measures.
- All equipment is sanitised prior to use, particularly the interior of all safari vehicles.
- Hand sanitisers are provided for all guests before embarking on activities.
- Individual snack packets are handed out instead of finger food platters.

If a guest or employee displays symptoms related to Covid-19, Gondwana Collection Namibia has guidelines with medical and health service contact numbers in place as well as dedicated isolation facilities.

Together we can make it

Each Gondwana property warms the heart, delights and inspires. Built in locations with spectacular landscapes, they are in close proximity to epic natural wonders, geological marvels, World Heritage sites, places steeped in history and animal sanctuaries.

We worked very hard and are well prepared to ensure the safety of our guests. Experience the feeling of self-assurance and well-being radiating from our Gondwana family. We are ready to welcome you and to introduce you to our fascinating Namibia.
