

Modernize the Way Your Force Communicates

Unio addresses key communication challenges first responders face every day through a powerful platform that lets teams connect with leadership, groups, and individuals instantly.

Unio Features

- Secure Messaging
- Battalion, Station, & Command Groups
- Unified News & Information Feed
- Voice & Video Calling
- Share Photos & Files
- End-to-end Encryption
- Single Sign-on
- HIPAA, GDPR, and PIPEDA Compliant

“Ensuring my people and teams have day-to-day operational information, as well as other community news, is simple and reliable with Unio.”

- Chief, Fire Department

Key Benefits of Unio

Improve Leadership Visibility

Quickly push operational updates, daily briefings, preplanned tasks, community events, and critical information through dedicated groups and an integrated newsfeed.

Build Team Comradery

Drive more engagement with a unified news and information feed that centralizes and supports the initiatives your teams care about most.

All-in-one Communications

Give your force a tool that lets them connect with the right people—anywhere, anytime. Unio supports voice and video calls, rich messaging, group chats, and on-the-go file sharing.

Unify Your Entire Force

Unio makes it easy for you to bring your entire force together, from dispatch to first responders—you can keep everyone on the same page.

100% Secure Communications

Allow your teams to use their personal phones while protecting their privacy. Unio is powered by world-class BlackBerry security and encryption technology.

Enhance Situational Awareness

Ensure your teams have the most accurate information, whether they're at the station, debriefing, or responding to a call.

Are you ready to transform the way your force communicates?
