

Double down on a great guest experience, with Patriot One patron screening solutions.

Add security, and keep the look

With customizable exteriors, the Multi-Sensor Gateway blends with your entrance, keeping your aesthetic intact and our Video Recognition Software integrates with your existing video management systems, to provide alerts and insights on weapons detection, anomalous behavior and crowd management.

Add security, and enhance the experience

The unobtrusive security screening solution allows casinos to continue to facilitate frictionless patron entry, without having to divest their personal assets or endure invasive pat downs, with an added layer of security to reduce the threat of weapons.

Add security, and add to your insights

Our AI platform offers facility insights such as guest flow, dwell time, and crowd behavior analysis amongst a host of other valuable operational insights, allowing you to increase revenues and streamline operational processes. Designed to be extensible - our solutions will adapt to future business requirements, ensuring security keeps pace with, and leads, business innovation.

Customizable exterior

Weatherproof

Up to 150' of threat detection outside the entrance

Touch-less screening

Protects individual privacy

Industry-leading accuracy

Improve guard's effectiveness

Getting started is easy.

Building industry leading technology is complicated, so we've simplified using it. Our team of experts will work with you to understand your needs and assess your venue to find the perfect solution in the ideal configuration to deliver the best-possible results. Once installed, we make sure you have ongoing support to help you get the most out of your solution. This includes software upgrades, built based on client feedback to address new challenges and threats. Contact us to start your site assessment and see how Patriot One helps add to your security, and your bottom line.

Maintain the frictionless guest experience.

Our gateway and video solutions are unobtrusive, allowing your guests to enjoy their experience while providing security operators with more robust detection.

Screen for a wide range of threats.

Our sensors help identify unauthorized guns, knives, inappropriate behaviour, mask compliance, and elevated body temperatures.

Add a layer of security.

Our system detects threats up to 150' outside of your venue, giving your security staff more time to make decisions and react to incidents.
