

SWEET  ROLLZ™

— G O L F —

Our Story

Sweet Rollz Golf was created with a simple goal – to breathe new life and style into golf, starting with the radical reimagining of the boring putter grip. For too long, attempts to add style and flair to golf accessories had mostly been cheesy and kitschy, or both. As a result, golf accessories have mostly remained unoriginal and, well, pretty meh.

As we set out to design the “Sistine Chapel of putter grips” we wanted to be bold but keep it classy. The result is a beautiful line of super high-quality putter grips for every golfer who wants to make a personalized statement without having to sacrifice performance.

Technical Specs

The Materials

Each grip material is made from a fabric reinforced polyurethane sheet with a thermoformed rubber inner structural frame. A layer of adhesive is added to the rubber, then the grip is hand-stitched together over the rubber frame (similar to the process used in the stitched leather steering wheel in a Porsche).

The Feel

The stitched synthetic urethane grip incorporates a low-profile embossed honeycomb pattern which allows the feel of the putt to transfer seamlessly into your palms – for the ultimate feedback while putting.
