

Simplify grant proposal evaluation

Government and nonprofit agencies receive thousands of proposals for grants and other awards. When using iThenticate to screen incoming proposals for potential plagiarism or other misconduct, these agencies can select the best recipient for the award and protect themselves from being party to potential grant fraud.

“You can never be too certain even at the highest level that you are always getting original content. iThenticate has provided the kind of safety net that we were looking for.”

E. Kissel
University Corporation of Atmospheric Research (UCAR)

Incorporate iThenticate into the grant review process

1 Proposal screening

- Check for similarity to prior published works, including patents
- Compare against 96% of Top Cited Journals
- Compare against private repository of previous proposals

2 Proposal evaluation

- Screen for originality

3 Award grant

- Store submitted and awarded proposals in private repository
- Track awarded proposals to fight against grant fraud

4 Post award evaluation

- Review findings and originality
- Investigate misconduct
- Clarify any redundancies with researchers

Relied on by the world’s top research agencies
